December 13, 2016

To the Citizens and Board of Education of the Granville Exempted Village School District:

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the Granville Exempted Village School District (the "District"). This CAFR, which includes a clean opinion unmodified from the Auditor of State of Ohio, conforms to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with District's management. To the best of our knowledge and belief, this CAFR and the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the Independent Auditor's Report.

This report includes all funds of the District. The District provides a full range of traditional educational programs, services and facilities. These include elementary and secondary curriculum at the general, college preparatory and vocational levels, a broad range of co-curricular and extracurricular activities, special education programs and facilities.

In addition to providing these general activities the District has administrative responsibility for state funds distributed to Granville Christian Academy and Welsh Hills School, private schools located within the District boundaries. In accordance with GASB Statement 24, this responsibility is included in the reporting entity as a special revenue fund. While these organizations share operational and service similarity with the District, all are separate and distinct entities. Because of their independent nature, these organizations' financial statements are not included in this report.

#### PROFILE OF THE SCHOOL DISTRICT

The District was organized in the late 1800's and is a fiscally independent political subdivision of the State of Ohio. The District is a public school system located in Licking County. The District's area is approximately 48 square miles and includes all of the Village of Granville and Granville Township as well as portions of the Cities of Newark and Heath and portions of Newark, Newton, McKean, St. Albans and Union Townships. Granville is a quaint New England-type village founded in 1805 by pioneers from Massachusetts and Connecticut. The area enjoys a favorable reputation for its educational institutions, including Denison University.

The Board of Education (the "Board") of the District is composed of five members elected at large by the citizens of the District. The Board serves as the taxing authority, contracting body, and policy initiator for the operation of the District. The Board is responsible for the adoption of the tax budget, the annual operating budget and the approval of all expenditures of the District. The Board is a body politic and corporate, as defined by Section 3313.02 of the Ohio Revised Code, and has only those powers and authority conferred upon it by the Code.

The District had an enrollment of 2,434 students for the fiscal year end June 30, 2016 compared to 2,402 students for the fiscal year ended June 30, 2015. These students are housed in one elementary school (grades K to 3), an intermediate school (grades 4 to 6), a middle school (grades 7 to 8), and a comprehensive high school (grades 9 to 12). The age of the buildings varies with the oldest built in 1950 and the newest, the intermediate building, opened in fiscal year 2003. Additionally, the District operates an administration building, a transportation building, and a maintenance office.

The District estimates enrollment to be 2,443, 2,464, and 2,446 for the fiscal years ending June 30, 2017, 2018, and 2019 respectively. The District's enrollment is based on average daily attendance figures and do not include students living within the District's attendance area who attend charter, community, or private schools.

#### **Economic Condition and Outlook**

Central Ohio has rebounded well from the national recession and the local economy is now growing at a healthy pace. The housing market in Granville generally held its value during the recession and is now showing price increases in most areas of the district. New construction, which had been mostly dormant during the housing market slowdown is beginning to rebound, although nowhere near the levels achieved 10 years ago. Low rates of turnover in housing during the recession are now behind us. The number of existing home sales in the district in 2014 more than doubled from 2013. The slowdowns in both new housing construction and existing home turnover, coupled with low birthrates has led to enrollment declines since the 2009/2010 school year. However, the reversal of the former two items has led to an increase in enrollment of just over one percent in the 2015/2016 school year and gives the district a positive outlook for modest enrollment growth over the next several years.

Granville schools, in conjunction with Granville Village, Granville Township, and the local Chamber of Commerce, have begun discussions over the past year about strategies for enhancing long-term economic sustainability. The purpose of these discussions are to foster a shared understanding and plan to implement the area's Comprehensive Plan which is intended to provide a framework through which the Granville Community can address issues related to the future of the community, including the extension of the Columbus region into Licking County, the strengthening of the tax base, and the expansion of housing opportunities, and assist with decisions that also serve to protect and preserve the rural character of the Township, the small town character of the Village, the quality and capacity of Granville schools, and other aspects of the community's quality of life.

The Granville area offers an excellent opportunity for business growth and expansion. The community contains a diverse group of employers, from small cottage home based businesses to major commercial/industrial and service corporations. Jobs are based in the college, area businesses, and many employers in the Columbus metropolitan area. Rich in higher education opportunities, Granville is the home of Denison University, and located just east of Granville, Central Ohio Technical College and The Ohio State University Newark campus. The largest employers in the District in terms of numbers of employees are: Denison University, Granville Exempted Village Schools, and the Owens Corning Technical Center.

#### GRANVILLE EXEMPTED VILLAGE SCHOOL DISTRICT

With the passage of a new 5.5 mill operating levy in November of 2013 and the five-year renewal of the district's permanent improvement levy in May of 2014, the district's cash balances have improved over the past couple years. In addition to increased revenues from the levy, the District has also seen increases in state aid over the last two years. Modest increases are expected to continue through the current five-year forecast period.

The financial forecast of General Fund operations for the next five years shows that the District's fiscal year 2017 ending General Fund cash balance is projected to be approximately \$4.3 million. This is the first year since the passage of the levy from 2013 where fund balance declines as expenditures outpace revenues. Fund balances are expected to approach zero by the 2020 fiscal year without adjustments to spending and new revenues.

#### MAJOR INITIATIVES AND ACCOMPLISHMENTS

#### Accomplishments for Fiscal Year 2016

#### **Financial**

Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2015. This was the fifth consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The district completed the calling nearly \$27 million of outstanding debt and replaced that with newly issued debt. The call, which was completed as of December 1, 2015, will save the district about \$3.5 million in debt service costs through 2031, will lower outstanding debt by about \$3.3 million, and yield a net present value return of nearly 10 percent.

The district also implemented the Bonefish system for the 2015/2016 school year. Bonefish software is an added layer of protection to defend against fraud and to help the district comply with federal procurement law.

#### Salaries

The district and the Granville Education Association (GEA) reached a three-year agreement in April 2014. The agreement called for two percent base increases for each of the three years of the contract, beginning with the 2014/2015 school year. This agreement comes on the heels of a two-year agreement in which employees received no base salary increases and no step increases in the first year and just a one percent base salary increase in the second year.

#### **Health Care Benefits**

The district and the GEA amended the current contract effective January 1, 2016 to address overall premium growth and potential liabilities under the federal Cadillac Tax. Under the adjustment, out-of-pocket maximums were increased by \$750 annually for single policies and \$1,500 for family policies. At the same time, annual employee share of premiums were reduced by this same amount. The impact was to lower overall premiums by six percent for calendar year 2016 in a way that was financial neutral or beneficial to both employees and the district. This change also was a factor in a renewal of insurance benefits for January 1, 2017 that had no increase over 2016.

#### Instruction & Academic Achievement

- Early literacy is critical for future success, and 76% of third-graders passed the 3<sup>rd</sup> grade Ohio State Test; 62% scored advanced or accelerated, and 100% of students met the requirements of the 3<sup>rd</sup> Grade Guarantee to move to 4<sup>th</sup> grade.
- Granville offers 17 Advance Placement (AP) courses, and 84% of 423 AP tests taken scored a 3 or higher (the score needed to earn college credit). 68 GHS students were named AP scholars.
- The Class of 2016 had an average ACT composite score of 25.6 (Ohio average is 22) and average SAT scores of 1721 (2400-point scale) and 1169 (1600-point scale).
- More than 90% of graduates attend a 2- or 4-year institution, including admission to over 100 top universities. Estimated scholarships for the Class of 2016 exceeded \$4.5 million.
- An academic competition for recognition and scholarships, the 2016 National Merit Program Awards include five National Merit Finalists and seven Commended Students from GHS.
- GMS achieved the SOAR Award for High Progress High Schools from Battelle for Kids and GEVSD was name a High Growth District.
- Global Scholars Diploma, which builds competencies of investigating the world, recognizing perspectives, communicating ideas and taking action, was awarded to 4 students, with 75 enrolled in the program.
- An award-winning World languages program, including gold, silver and bronze medals in the 2016 National French, Latin and Spanish exams.
- GMS students earned 311 high school credits toward graduation.
- GES provides both intervention and enrichment supports at all grade levels, and uses a positive behavioral intervention system (PAX) to build strong character in all students.
- GIS features a Cultural Arts Night to showcases students accomplishments in art, music and physical education.

#### \Initiatives for Fiscal Year 2017

#### **Financial**

The District will apply to receive the Certificate of Excellence in Financial Reporting for its fiscal year 2016 CAFR.

The current labor contract with GEA expires at the end of the current fiscal year. The district is exploring through the joint management/labor insurance committee long-term options that will both enhance overall benefits and help control increases in costs.

#### Instruction

Granville Exempted Village School District (GEVSD) identified Project-Based Learning (PBL) as the innovative practice that would have the greatest impact on our students and best prepare them for the future. Project Based Learning engages students in take-action projects that allow them the opportunity to tangibly apply conceptual skills developed within the classroom. Through PBL, students develop critical soft skills, such as working well with others, handling interpersonal conflicts, making thoughtful decisions, and solving complex problems. A key component of PBL is the treatment of failure as part of the learning process. Unlike traditional classroom settings, students are given the opportunity to make mistakes, learn from these mistakes, and improve their skills. These are essential traits in the global marketplace.

GEVSD prioritizes' building high quality, strategic teachers that represent both the art and the science of teaching. We know that the teacher matters most in providing a superior educational experience for students. With this in mind, we employ professional development that is based on high-leverage instructional approaches that are research-based. We have engaged the national faculty from the Buck Institute to provide the professional development on PBL. The Gold Standard of PBL professional development looks at the effective design elements and teacher practices that ensure high quality experiences and projects for students.

GEVSD is in the planning stages for a one-to-one computer initiative in grades 7-12 as well as a global language program in kindergarten through 6<sup>th</sup> grade. The planning aspect of any initiative is critical for the successful implementation of the program. We believe that these initiatives will augment our current educational programs and drive student success.

#### GRANVILLE EXEMPTED VILLAGE SCHOOL DISTRICT

#### FINANCIAL POLICIES AND INFORMATION

The District courses of study will continue to be revised and periodically updated to provide students with instruction that is closely correlated with the State's academic content standards. To support the effective implementation of the new courses of study, additional financial resources will be needed to train teachers and to provide students with current learning materials and equipment.

#### **Internal Controls**

The management of the District is responsible for establishing and maintaining internal controls designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with Generally Accepted Accounting Principles. The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management.

#### **Budgetary Controls**

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the certificate of estimated resources, and the appropriations resolution, both of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control required by Ohio Revised Code is at the fund level. The level of budgetary

control imposed by the District (the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level for all funds. Any budgetary modifications at these levels may only be made by resolution of the Board of Education. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts at year-end are carried forward to succeeding years and are not re-appropriated.

#### Risk Management

The District is enrolled in a group purchasing program for worker's compensation. In this plan, the individual premium rate is calculated based on the worker's compensation experience of the District. Additionally, the District carries all-risk property insurance on buildings and contents, fleet insurance on all rolling stock, liability and excess liability insurance coverage as well as officers' liability insurance, employee benefits liability, and workers' compensation intentional acts defense coverage. All employees are covered by the District's blanket bond, and medical coverage for employees is provided through a conventional healthcare plan.

#### Cash Management

Cash temporarily idle during the year was invested in demand deposits, certificates of deposit, and both the State Treasury Asset Reserve of Ohio (STAR Ohio) and money market accounts through Park National Bank.

#### GRANVILLE EXEMPTED VILLAGE SCHOOL DISTRICT

#### **Independent Audit**

Office of Management and Budget Circular A-133 requires an annual audit by independent accountants. The Auditor of State of Ohio conducted the District's fiscal year 2015 audit. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Federal Single Audit Act Amendments of 1996 and related OMB Circular A-133. The Independent Auditors' Report on the basic financial statements is included in the financial section of this report.

#### Acknowledgements

This report has been compiled and prepared by the Treasurer's office staff. Special acknowledgement is given to the Superintendent of Schools and the Granville Board of Education for their leadership and commitment to the students, staff and community of the Granville Exempted Village School District.

Respectfully submitted,

Mike Sobul, CFO/Treasurer

#### INDEPENDENT AUDITOR'S REPORT

Granville Exempted Village School District Licking County 130 North Granger Street Granville, Ohio 43023

To the Board of Education:

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Granville Exempted Village School District, Licking County, Ohio (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Granville Exempted Village School District Licking County Independent Auditor's Report Page 2

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Granville Exempted Village School District, Licking County, Ohio, as of June 30, 2016, and the respective changes in financial position thereof and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

#### Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Granville Exempted Village School District Licking County Independent Auditor's Report Page 3

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2016, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**Dave Yost** Auditor of State Columbus, Ohio

December 13, 2016

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016 (UNAUDITED)

As management of the Granville Exempted Village School District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2016. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 3-8 of this report.

#### **Financial Highlights**

- The liabilities and deferred inflows of resources of the District exceeded its assets and deferred outflows or resources at the close of the most recent fiscal year by approximately \$29.7 million (negative net position).
- Net position increased \$783,348 during the fiscal year.
- As of the close of the most recent fiscal year, the District's governmental funds reported combined ending fund balances of approximately \$7.8 million, an increase of approximately \$1.2 million in comparison with the prior year.
- At the end of the current fiscal year, unassigned fund balance for the general fund was approximately \$2.2 million, or 8 percent of general fund expenditures.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements can be found on pages 29-30 of this report.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016 (UNAUDITED)

**Fund Financial Statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District's major funds are the general and debt service funds. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

#### Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 31-35 of this report.

#### Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statement can be found on page 36 of this report.

**Notes to the basic financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements begin on page 37 of this report.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on pages 71-77 of this report.

The combining and individual fund statements and schedules referred to earlier in connection with nonmajor governmental funds can be found on pages 80-96 of this report.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016 (UNAUDITED)

#### **Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by approximately \$29.7 million at the close of the current fiscal year.

By far the largest portion of the District's net position reflects its investment in capital assets (e.g. land, buildings, furniture and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An analysis of fiscal year 2016 in comparison with fiscal year 2015 follows for the Statement of Net Position:

	2016	 2015	Change
		 _	
Current and Other Assets	\$ 31,181,915	\$ 30,063,265	3.7%
Capital Assets	30,452,565	31,498,771	-3.3%
Total Assets	61,634,480	61,562,036	0.1%
Unamortized Amount on Refunding	588,878	610,556	-3.6%
Pension	3,948,474	2,493,800	58.3%
Total Deferred Outflows of Resources	 	 	46.2%
Total Deferred Outflows of Resources	 4,537,352	 3,104,356	40.2%
Current Liabilities	2,929,586	3,293,640	-11.1%
Long-Term Liabilities:			
Due Within One Year	1,946,361	1,559,198	24.8%
Due in More Than One Year:			
Net Pension Liability	36,643,954	31,901,663	14.9%
Other Amounts	31,827,831	32,537,402	-2.2%
Total Liabilities	73,347,732	69,291,903	5.9%

Total Deferred Inflows of Resources	 22,330,732	 25,672,105	12.570
Net Investment in Capital Assets	5,800,999	6,839,124	-15.2%
Restricted	3,961,793	3,412,633	16.1%
Unrestricted	(39,477,424)	(40,749,737)	-3.1%
Total Net Position	\$ (29,714,632)	\$ (30,497,980)	-2.6%

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016 (UNAUDITED)

Current Liabilities decreased significantly in comparison with the prior fiscal year-end. This decrease is primarily the result of a decrease in accrued interest payable due to bond maturities during the fiscal year.

Net Pension Liability increased significantly in comparison with the prior fiscal year-end. This increase is primarily the result of unfavorable pension investment returns, as reported by the pension systems.

Net Investment in Capital Assets decreased significantly in comparison with the prior fiscal year-end. For the most part, this decrease represents the amount in which current year depreciation exceeded capital asset additions.

An analysis of fiscal year 2016 in comparison with fiscal year 2015 follows for the Statement of Activities:

#### Governmental Activities

	 2016	2015	Percent Change
Charges for Services	\$ 1,467,695	\$ 1,463,671	0.3%
Operating Grants	1,175,747	949,145	23.9%
Capital Contributions	81,751	-	100.0%
Property Taxes	21,671,072	21,037,465	3.0%
Grants and Entitlements	8,833,314	8,875,086	-0.5%
Payment in Lieu of Taxes	-	142,058	-100.0%
Investment Earnings	61,454	15,608	293.7%
Miscellaneous	 74,926	 149,398	-49.8%
Total Revenues	33,365,959	32,632,431	2.2%
Instructional	16,694,750	16,072,181	3.9%
Support Services	11,068,046	10,145,634	9.1%
Non-instructional Services	1,106,203	908,067	21.8%
Extracurricular Activites	1,354,966	1,469,016	-7.8%
Interest and Fiscal Charges	 2,358,646	 2,550,491	-7.5%
Total Expenses	32,582,611	31,145,389	4.6%
Change in Net Position	783,348	1,487,042	
Net Position at Beginning of Year	 (30,497,980)	(31,985,022)	
Net Position at End of Year	\$ (29,714,632)	\$ (30,497,980)	

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016 (UNAUDITED)

#### Revenues

Operating Grants increased significantly in comparison with the prior fiscal year primarily as a result of increases in federal funds for special education and state funds for non-public schools.

#### **Program Expenses**

Total expenses increased slightly in comparison with the prior fiscal year. This increase is primarily the result of an increase in salary and salary-related expenses.

The Statement of Activities shows the cost of program services and charges for service and grants and contributions, offsetting those services. Table 3 shows the total cost of services and the net cost of services.

An analysis of fiscal year 2016 in comparison with fiscal year 2015 follows:

		Total Cost of		Total Cost of		Net Cost of	Net Cost of	
	S	ervices 2016	S	ervices 2015	S	ervices 2016	Se	ervices 2015
Program expenses								
Instructional	\$	16,694,750	\$	16,072,181	\$	15,755,820	\$	15,295,046
Support services		11,068,046		10,145,634		10,722,881		9,880,045
Non-instructional Services		1,106,203		908,067		84,803		(83,155)
Extra Curricular Activities		1,354,966		1,469,016		935,268		1,090,146
Interest		2,358,646		2,550,491		2,358,646		2,550,491
Total	\$	32,582,611	\$	31,145,389	\$	29,857,418	\$	28,732,573

This schedule clearly shows the dependence upon tax revenues and state subsidies for governmental activities. Only 8.4 percent of the governmental activities performed by the District are supported through program revenues such as charges for services and operating grants. The remaining 91.6 percent is provided through general revenues such as property taxes and unrestricted grants and entitlements.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016 (UNAUDITED)

#### Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unrestricted fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

An analysis of fiscal year 2016 in comparison with fiscal year 2015 follows:

		Fund Balance June 30, 2016					(	Increase/ (Decrease)
General Fund Debt Service Fund Other Governmental Funds	\$	3,806,725 2,353,044 1,641,993	\$	2,830,717 2,588,135 1,167,438	\$	976,008 (235,091) 474,555		
Total	\$	7,801,762	\$	6,586,290	\$	1,215,472		

#### General Fund

During the current fiscal year, the fund balance in the District's General Fund increased \$976,008, compared with an approximate \$1.6 million increase in the previous fiscal year. This is the result of inflationary expenditure increases outstripping revenue increases.

#### **Debt Service Fund**

During the current fiscal year, the fund balance in the Debt Service Fund decreased \$235,091. This decrease is primarily the result of the District transferring \$350,000 in excess funds to the Permanent Improvement Fund.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016 (UNAUDITED)

#### **General Fund Budget Information**

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

Actual revenues exceeded Final Estimated Resources by \$389,472, or 1%, and actual budgetary expenditures exceeded Final Appropriations by \$28,406. The District did not amend the revenue and expenditure budgets throughout the fiscal year.

#### **Capital Assets**

At the end of the fiscal year, the District had \$30.5 million (net of accumulated depreciation) invested in capital assets, a decrease of \$1.0 million in comparison with the prior fiscal year-end. This decrease represents the amount in which current year depreciation, totaling \$1.5 million, exceeded current year capital acquisitions (\$492,454). This investment in capital assets includes land, land improvements, buildings and improvements, furniture and equipment, and vehicles. Detailed information regarding capital asset activity is included in the Note 6 to the basic financial statements.

#### Debt

At the end of the fiscal year, the District had total long-term debt outstanding of \$32.5 million, a decrease of \$311,894 in comparison with the prior fiscal year-end. This decrease represents the amount in which current debt service payments and amortization, totaling \$28.4 million, exceeded new issues and current year accretion, totaling \$28.1 million. Detailed information regarding long-term obligations is included in Note 7 to the basic financial statements.

Under current state statutes, the District's general obligation bonded debt issues are subject to a legal limitation based on 9% of the total taxable valuation of real and personal property. As of June 30, 2016, the District's general obligation debt was below the legal limit.

#### **Economic Factors**

The District's most recent operating levy was 5.5 mills passed in November of 2013. The District administration is committed to minimizing the shortfalls and maintaining a positive cash flow through spending controls that cause the least disruption to academic programs. During fiscal year 2016, the District's net position increased by \$783,348. This trend is not expected to continue as the District nears the end of the current operating levy life cycle.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016 (UNAUDITED)

#### **Contacting the District's Financial Management**

This financial report is designed to provide our citizen's, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have any questions about this report or need additional financial information you may contact Mike Sobul, Treasurer at Granville Exempted Village School District, 130 North Granger Street, P.O. Box 417, Granville, Ohio 43023. You may also email the treasurer at <a href="mailto:mseahout.new">mseahout.new</a> and investors and creditors with a general overview of the money it receives. If you have any questions about this report or need additional financial information you may contact Mike Sobul, Treasurer at Granville Exempted Village School District, 130 North Granger Street, P.O. Box 417, Granville, Ohio 43023. You may also email the treasurer at <a href="mailto:mseahout.new">mseahout.new</a> and creditors with a general overview of the money it receives.

## RECONCILIATION OF TOTAL GOVERNMENTAL FUND BALANCES TO NET POSITION OF GOVERNMENTAL ACTIVITIES JUNE 30, 2016

<b>Total Governmental Fund Balances</b>	\$	7,801,762
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.		30,452,565
Other long-term assets are not available to pay for current period expenditures and therefore are reported as deferred inflows of resources in the funds.		400.544
Delinquent Property Tax Receivables		428,544
The net pension liability is not due and payable in the current period; therefore, the liability and related deferred inflows/outflows are not reported in governmental funds:		
Deferred Outflows - Pension		3,948,474
Deferred Inflows - Pension		(2,436,554)
Net Pension Liability	(	(36,643,954)
Long-Term liabilities, including bonds and notes payable, are not due and payable in the current period and therefore are not reported in the funds.		
Bonds and Notes Payable (Including CABS and Accretion)	(	(28,000,921)
Energy Conservation Notes Payable		(455,844)
Bond Premium		(3,996,230)
Deferred Amount on Refunding		588,878

See accompanying notes to the basic financial statements.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2016

Net Change in Fund Balances - Total Governmental Funds	\$ 1,215,472
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives as depreciation expense.  Depreciation Expense Capital Outlay	(1,538,660) 410,703
The net effect of various transactions involving capital assets (i.e. contributions, sales, etc.)	81,751
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	
Property Taxes	(24,425)
Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows.	2,089,638
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities.	(2,016,737)
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.	
Issuance of Refunding Bonds	(23,615,000)
Premium on Refunding Bonds	(3,855,499)
Payment to Refunding Bond Escrow	26,980,000
Capital Lease Repayment	70,135
Bond and Note Principal Repayments	1,196,586
Amortization of Deferred Charge on Refunding	(37,498)
Amortization of Bond Premium/Discount	253,162
Accretion of Capital Appreciation Bonds	(631,535)
Some expenses reported in the statement of activities, such as compensated	
absences payable and other accounts payable, do not require the use of current	
financial resources and therefore are not reported as expenditures in the funds.	
Compensated Absences	(113,624)
Accrued Interest	318,879
Change in Net Position of Governmental Activities	\$ 783,348

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### NOTE 1 – DESCRIPTION OF THE DISTRICT AND REPORTING ENTITY

Granville Exempted Village School District (the "District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The District provides educational services as authorized by State statute and Federal guidelines.

The District was established in the late 1800's. The District serves an area of approximately 48 square miles. It is located in Licking County, and includes all of the Village of Granville and Granville Township as well as portions of the Cities of Newark and Heath and portions of Newark, Newton, McKean, St. Albans and Union Townships. It is staffed by 53 non-certified employees, 165 certified full-time personnel and 13 administrative employees who provide services to 2,382 full time equivalent students. The District currently operates four instructional buildings, one administrative building, and one transportation building.

### **Reporting Entity:**

A reporting entity is comprised of the primary government, component units, and other organizations that are included to insure that the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For the Granville Exempted Village School District, this includes general operations and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District provides the budget, the issuance of debt, or the levying of taxes. The District has no component units.

The following activities are included within the reporting entity;

**Private Schools-** Welsh Hills and Granville Christian Academy, private schools, operate within the District boundaries. Current State legislation provides funding to these private schools. These monies are received and disbursed on behalf of the private schools by the Treasurer of the District, as directed by the private schools in accordance with State rules and regulations. This activity is reflected in a special revenue fund for financial reporting purposes.

The District is associated with seven organizations, four of which are defined as jointly governed organizations, two as insurance purchasing pools, and one as a related organization. These organizations are the Licking Area Computer Association, Career and Technology Education Centers of Licking County, Metropolitan Educational Technology Association, the Newark-Granville Community Authority, the Ohio School Boards Association Workers' Compensation Group Rating Plan, the Metropolitan Educational Technology Association Group Insurance Pool, and the Granville Schools Education Foundation, Incorporated. These organizations are presented in Notes 14, 15, and 16 to the basic financial statements.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### (a) Government-wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities (the District has none), which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds (the District has none), and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column.

The District reports the following major governmental funds:

General Fund — The General Fund is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

*Debt Service Fund* — The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Other Governmental Funds of the District account for food services, co-curricular activities, federal and state grants, and other resources.

*Proprietary Funds* – Proprietary funds consist of enterprise funds, which are used to report any activity for which a fee is charged to external users for goods or services, and internal service funds, which are used to allocate costs of centralized services. The District reports no proprietary funds.

Fiduciary Funds — Fiduciary funds are used to account for assets held by the District in a trustee or agency capacity for others and therefore cannot be used to support the District's own programs. Fiduciary funds include pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. The District has two fiduciary funds both being agency funds. One accounts for the Newark-Granville Authority and the other accounts for student activities.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements; however, interfund services provided and used are not eliminated.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (b) Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements, except agency funds which do not report results of operations and therefore have no measurement focus. Revenues are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are prepared using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available: property taxes available for advance, tuition, grants and student fees.

### Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refundings and for pensions. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension are explained in Note 10.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, unavailable revenue, and pension. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2016, but which were levied to finance fiscal year 2017 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental funds balance sheet. Unavailable revenue includes delinquent property taxes. These amounts are only reported on the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension are reported on the government-wide statement of net position (See Note 10).

### Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation, are not recognized in governmental funds.

### (c) Budgetary Data

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the certificate of estimated resources and the appropriations resolution, each of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increases tax rates and the filing requirement is waived by the Licking County Auditor. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriations resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Board. The legal level of budgetary control has been established by the Board of Education at the fund level for all funds. Any budgetary modifications at this level may only be made by the Board of Education. Budgetary allocations at the function and object level within all funds are made by the Treasurer. Advances in/out are not required to be budgeted since they represent a temporary cash flow resource and are intended to be repaid.

The certificate of estimated resources may be amended during the year if the projected increases or decreases in revenue are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statement reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statement reflect the amounts on the amended certificate of estimated resources in effect at the time the final appropriations were passed by the Board.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

### (d) Cash and Investments

To improve cash management, cash received by the District is pooled and invested. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Interest in the pool is presented as "Pooled Cash and Cash Equivalents" on the financial statements. Investments of the District's cash management pool and investments with an original maturity of three months or less at the time they are purchased by the District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

The District has segregated investments for non-negotiable certificates of deposit held separate from the District's investments. These non-negotiable certificates of deposit are to be used to provide scholarships to graduating seniors. These investments are presented on the financial statements as "Investments in Segregated Accounts" since they are not deposited into the District treasury.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments are reported as assets. Accordingly, purchases of investments are not recorded as expenses, and sales of investments are not recorded as revenues. During the fiscal year, the District's investments were limited to State Treasury Asset Reserve of Ohio (STAR Ohio), money market funds, and negotiable certificates of deposit.

STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on June 30, 2016.

Under existing Ohio statutes, all investment earnings are assigned to the general fund except those specifically related to certain trust funds, unless the Board of Education specifically directs interest to be recorded in other funds. Interest revenue was credited to the general fund, debt service fund, and program donations fund during fiscal year 2016, totaling \$47,513, \$13,356, and \$585, respectively. The amount credited to the general fund includes \$15,163 assigned from other District funds.

### (e) Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, laws of other governments, or imposed by law through constitutional provisions or enabling legislation. The District had no restricted cash and cash equivalents at year-end.

### (f) Inventory and Prepaid Items

Inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

Payments made to vendors for services that will benefit periods beyond fiscal year-end are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year which services are consumed.

At fiscal year-end, because inventory and prepaid items are not available to finance future governmental fund expenditures, the fund balance is reserved in the fund financial statements by an amount equal to the carrying value of the asset. The District had no significant prepaid items at year-end.

### (g) Capital Assets and Depreciation

Capital assets are reported in the government-wide financial statements. Capital assets are defined as assets with an initial, individual cost of more than \$5,000. As the District constructs or acquires additional capital assets each period, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. Donated capital assets are recorded at their estimated fair market value as of the date received. The District does not possess any infrastructure.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

All reported capital assets, with the exception of land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Land Improvements	15 - 20
Buildings and Improvements	20 - 50
Furniture, Fixtures and Equipment	5 - 20
Vehicles	10 - 15

### (h) Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditure/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. These transfers are eliminated from the statement of activities.

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund loans receivable/payable", receivables and payables resulting from long-term interfund loans are classified as "loans to/from other funds", and receivables and payables resulting from payments on-behalf of other funds are classified as "due from/to other funds". These amounts are eliminated in the statement of net position.

### (i) Accrued Liabilities and Long-Term Obligations

In general, governmental fund payables and accrued liabilities that once incurred are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, compensated absences and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year.

In the government-wide financial statements, all long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest rate method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as an other financing source. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. Long-term notes paid from the governmental funds are recognized as a liability in the fund financial statements since current resources are used to finance the debt.

### (j) Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' right to receive compensation is attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. The District records a liability for the accumulated unused vacation time when earned for all employees with more than one year of service.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at the fiscal year end, taking into consideration any limits specified in the District's termination policy. The District records a liability for accumulated unused sick leave for all employees having 10 or more years of current service with the District.

### (k) Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

### (l) Net Position

Net position represent the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net investment in capital assets consist of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted for other purposes include resources restricted for auxiliary services and state and federal grants restricted for specified purposes. None of the District's reported net position at June 30, 2016 was restricted by enabling legislation.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

#### (m) Fund Balance

GASB Statement No. 54, *Fund Balance Reporting* became effective for years beginning after June 15, 2010. The objective of this Statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. This Statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

In accordance with this guidance, the District classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The District may use the following categories:

Nonspendable - resources that are not in a spendable form (inventory) or have legal or contractual requirements to maintain the balance intact (unclaimed funds).

Restricted - resources that have external purpose restraints imposed on them by providers, such as creditors, grantors, or other regulators.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Committed - resources that can be used only for specific purposes pursuant to constraints imposed by formal action (resolution) of the District's highest level of decision-making authority (Board).

Assigned - resources that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. This includes the residual balance of all governmental funds other than the General Fund that were not classified elsewhere above. In the General Fund, assigned amounts represent intended uses established by policies of the District Board of Education, which includes giving the Treasurer the authority to constrain monies for intended purposes.

Unassigned - residual fund balance within the General Fund not classified elsewhere above and all other governmental fund balances which have a negative fund balance.

The District applies restricted resources first when an expense is incurred for purposes which both restricted and unrestricted fund balance/net position is available. The District considers committed, assigned and unassigned fund balances, respectively, to be spent when expenditures are incurred for purposes for which any of the unrestricted fund balance classifications could be used.

### (n) Bond Premium and Discount/Accounting Gain or Loss

On government-wide statements, bond premiums are deferred and accreted over the term of the bonds. Bond premiums are presented as an addition to the face amount of the bonds. On the governmental fund financial statements, bond premiums are recognized in the current period.

For bond refundings resulting in the defeasance of debt reported in the government-wide financial statements, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. The accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as an addition to or reduction of the face amount of the new debt.

### (o) Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during the fiscal year.

### (p) Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reported period. Actual results could differ from those estimates.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### **NOTE 3 – BUDGETARY BASIS OF ACCOUNTING**

While the District is reporting financial position, results of operations, and changes in fund balances on the basis of accounting principles generally accepted in the United States of America (GAAP), the budgetary basis, as provided by law, is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual (Non-GAAP Basis) – General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

- 1. Revenues are recorded when received (budget basis) as opposed to when earned (GAAP basis).
- 2. Expenditures are recorded when paid (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures (budget basis) rather than assigned fund balance (GAAP basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund.

### **Net Change in Fund Balance**

GAAP Basis	\$ 976,008
Revenues	(198,302)
Expenditures	(206,736)
Public School Support Fund	(6,751)
Encumbrances	(393,537)
Budgetary Basis	\$ 170,682

With the implementation of GASB Statement No. 54, *Fund Balance Reporting*, the District's Public School Support Fund, no longer meets the special revenue fund type criteria for reporting in the fiscal year-end external financial statements. As such, this fund is presented as part of the District's General Fund in the year-end financial statements. The budgetary comparison information in the fiscal year-end financial statements is the legally adopted budget for the general fund, without modification for the funds no longer meeting the special revenue criteria.

#### NOTE 4 – DEPOSITS AND INVESTMENTS

Monies held by the District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the District treasury. Active monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### **NOTE 4 – DEPOSITS AND INVESTMENTS (Continued)**

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Interim monies held by the District can be deposited or invested in the following securities:

- 1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2 percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio or Ohio local governments;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 7. The State Treasurer's investment pool (STAR Ohio);
- 8. Commercial paper and bankers acceptances if training requirements have been met.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions.

### **Deposits**

Custodial Credit Risk - In the case of deposits, this is the risk that, in the event of a bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District.

At fiscal year-end, the carrying amount of the District's deposits was \$5,970,188 and the bank balance was \$5,996,445. Of the District's bank balance, \$5,976,260 was covered by the Federal Deposit Insurance Corporation (FDIC) and the remaining balance was exposed to custodial risk. Although all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### **NOTE 4 – DEPOSITS AND INVESTMENTS (Continued)**

The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

### **Investments**

At fiscal year-end, the District reported the following investments at fair value:

			Investment Maturities		
		Percent	Within	1 to 2	
Investment Type	Fair Value	of Total	1 Year	Years	
Money Market Funds	13,724	0.39%	13,724	-	
Negotiable Certificates of Deposit	3,503,412	99.61%	2,501,867	1,001,545	
Total	\$ 3,517,136	100%	\$ 2,515,591	\$ 1,001,545	

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. All of the District's investments reported at fair value are valued using quoted market prices (Level 1 inputs).

In addition, at fiscal year-end, the District's reported an investment in STAR Ohio totaling \$938. In accordance with GASB Statement No. 79, the District's investment in STAR Ohio is reported at amortized cost. For the fiscal year ended June 30, 2016, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates.

Interest Rate Risk - The District's investment policy addresses interest rate risk to the extent that it allows the Treasurer to invest funds to a maximum maturity of five years. The Treasurer cannot make investments which he/she does not reasonably believe can be held until the maturity date. State statute requires that an investment matures within five years from the date of purchase, unless matched to a specific obligation or debt of the District, and that an investment must be purchased with the expectation that it will be held to maturity. The stated intent of the policy is to avoid the need to sell securities prior to maturity.

*Credit Risk* - STAR Ohio carries a rating of AAAm by Standard and Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The District's money market funds and negotiable certificates of deposit were not rated. The District has no investment policy that addresses credit risk.

*Concentration of Credit Risk* - The District places no limit on the amount it may invest in any one issuer. The District's investment percentages are noted in the table above.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### **NOTE 5 – PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis while the District's fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility located in the school district. Real property tax revenue received in calendar year 2016 represents collections of calendar year 2015 taxes. Real property taxes received in calendar year 2016 were levied after April 1, 2015, on the assessed value listed as of January 1, 2015, the lien date. Assessed values for real property taxes are established by State law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2016 represents collections of calendar year 2015 taxes. Public utility real and tangible personal property taxes received in calendar year 2016 became a lien December 31, 2014, were levied after April 1, 2015 and are collected in 2016 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

The District receives its property taxes from Licking County. The County Auditor periodically advances to the District its portion of taxes collected. Second-half real property tax payments collected by the County by June 30, 2016, are available to finance fiscal year 2016 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property and public utility property which are measurable as of June 30, 2016 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources.

On the government-wide financial statements, collectible delinquent property taxes have been recorded as a receivable and revenue, while on fund financial statements the revenue has been reported as a deferred inflow of resources.

The assessed values upon which the fiscal year 2016 taxes were collected are:

	20	2015 Second Half Collections			2016 First Half Collections			
		Amount	Percent		Amount	Percent		
Real Estate Public Utility Personal	\$	431,981,913 9,976,780	97.74% 2.26%	\$	430,647,090 13,168,900	97.03% 2.97%		
Total	\$	441,958,693	100.00%	\$	443,815,990	100.00%		
Tax rate per \$1,000 of assessed valuation	\$	92.95		\$	92.95			

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

**NOTE 6 – CAPITAL ASSETS** 

A summary of capital asset activity for the fiscal year follows:

	Beginning Balance	Additions	Deductions	Ending Balance
Nondepreciable Capital Assets				
Land	\$ 1,465,969	\$ -	\$ -	\$ 1,465,969
Construction in Progress	-	210,904	-	210,904
Total Nondepreciable Assets	1,465,969	210,904		1,676,873
Depreciable Capital Assets				
Land Improvements	2,208,175	-	-	2,208,175
Buildings and Improvements	46,567,714	193,883	-	46,761,597
Furniture and Equipment	2,751,427	36,670	-	2,788,097
Vehicles	2,358,041	50,997	-	2,409,038
Total Depreciable Assets	53,885,357	281,550	-	54,166,907
Less Accumulated Depreciation				
Land Improvements	(1,198,463)	(90,051)	-	(1,288,514)

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### **NOTE 7 - LONG-TERM OBLIGATIONS (Continued)**

### 1994 School Improvement Refunding Bonds

School Improvement General Obligation Refunding Bonds - On October 15, 1993, the District issued \$7,536,838 in School Improvement General Obligation Refunding Bonds with interest rates varying from 2.6 percent to 4.65 percent to advance refund \$7,540,000 of outstanding 1990 school improvement bonds with an average interest rate of 10 percent. The proceeds of the refunding were deposited in an irrevocable trust with Park National Bank to provide for all future debt service payments. As a result, the 1990 Series bonds are considered to be defeased and the liability for those bonds has been removed from the financial statements. The 1990 School Improvement Bonds matured on December 2, 2002. The 1994 School Improvement General Obligation Refunding Bonds were retired during the fiscal year.

### **2002 School Improvement Bonds**

The District issued School Improvement Bond Anticipation Notes at 4.87 percent for \$21,220,000 on May 3, 2001, as a result of the District passing a 7.75 mill levy on November 7, 2000. The purpose of the notes was to build a new intermediate/elementary building for grades 4-6, an expansion of the high school, a new maintenance building, renovation of the elementary school and middle school, and to update building technology. The School Improvement Bond Anticipation Notes matured on December 6, 2001. On October 4, 2001, the District issued \$21,209,782 in General Obligation School Improvement bonds to pay off the bond anticipation notes. The District received \$22,053,938 in bond proceeds, which included a premium of \$835,218 and accrued interest of \$8,938. The \$21,209,782 bond issue included serial, term, and capital appreciation bonds in the amount of \$2,495,000, \$18,685,000, and \$29,782 respectively. The capital appreciation bonds will mature December 1, 2012 through 2016.

These bonds were purchased at a discount at the time of issuance and, at maturity all compound interest is paid and the bond holder collects the face value. However, since interest is technically earned and compounded semi-annually, the value of the bond increases. The maturity amount of the bonds is \$2,175,000. The fiscal year 2016 accretion amount is \$244,981.

During fiscal year 2007, the District advance refunded \$18,685,000 of the 2002 School Improvement term bonds. The advance refunded portion of the bonds was removed from the financial statements of the District. The remaining outstanding bonds are being retired from the Debt Service Fund. The original bonds were issued for a twenty-seven year period with final maturity at December 1, 2028, and after the advance refunding has a final maturity at December 1, 2016.

The total principal and interest requirements to retire the 2002 School Improvement General Obligation Bonds are as follows:

Fiscal Year			
Ending June 30,	 Principal	]	Interest
2017	 5,591		709,409
Total	\$ 5,591	\$	709,409

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### **NOTE 7 - LONG-TERM OBLIGATIONS (Continued)**

### 2004 School Improvement Bonds

On April 15, 2004, the District issued \$9,870,000 in General Obligation School Improvement Bonds to pay off outstanding 2003 bond anticipation notes. The District received \$10,318,130 in bond proceeds, which included \$16,078 in accrued interest and \$432,052 in premiums. The \$9,870,000 bond issue consists of serial, term, and capital appreciation bonds in the amount of \$6,855,000, \$2,950,000, and \$65,000 respectively. Issuance costs associated with the bond issue were \$207,507.

During fiscal year 2007, the District advance refunded \$4,010,000 of the serial bonds, and \$2,950,000 of the term bonds. The advance refunded portion of the bonds, as well as the unamortized premium and issuance costs of these advance refunded bonds were removed from the financial statements of the District. The remaining outstanding bonds are being retired from the Debt Service Fund. The serial and term bonds were originally sold at a premium of \$432,052, of which \$110,318 remained outstanding after the refunding. The premium will be amortized over the life of the bonds. Issuance costs associated with the bond issue were \$207,507. The original bonds were issued for a twenty-four year period with final maturity at December 1, 2028, and after the advance refunding has a final maturity at December 1, 2019.

During fiscal year 2014, the District refunded the remaining \$1,300,000 of the serial bonds. The refunded portions of the bonds, as well as the unamortized premium were removed from the financial statements of the District. The remaining outstanding capital appreciation bonds are being retired from the Debt Service Fund.

### 2005 Library Improvement Bonds

On April 6, 2005, the District issued \$5,175,000 in General Obligation Library Improvement Bonds to pay off outstanding 2005 bond anticipation notes, on behalf of the Granville Public Library. The District received \$5,357,024 in bond proceeds, which included \$182,024 in premium. The \$5,175,000 bond issue consists of serial and term bonds in the amount of \$1,050,000 and \$4,125,000 respectively. Issuance costs associated with the bond issue were \$128,124.

During fiscal year 2007, the District advance refunded \$3,820,000 of the term bonds. The advance refunded portion of the bonds, as well as the unamortized premium and issuance costs of these advance refunded bonds were removed from the financial statements of the District. The remaining outstanding bonds are being retired from the Debt Service Fund. The serial and term bonds were originally sold at a premium of \$182,024, of which \$7,046 remained outstanding after the refunding. The premium will be amortized over the life of the bonds. Issuance costs associated with the bond issue were \$128,124. The original bonds were issued for a twenty-six year period with final maturity at December 1, 2031, and after the advance refunding had a final maturity at December 1, 2015. The 2005 Library Improvement General Obligation Bonds were retired during the fiscal year.

### 2007 Advance Refunding Bonds

On January 30, 2007, the District issued \$29,464,972 of Advance Refunding General Obligation Bonds that were issued to partially refund the 2002 School Improvement Bonds, the 2004 School Improvement Bonds, and the 2005 Library Improvement Bonds. The \$29,464,972 bond issue consists of serial, term, and capital appreciation bonds in the amount of \$12,730,000, \$16,460,000, and \$274,972. The bonds were issued for a twenty-four year period with a final maturity at December 1, 2031.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### **NOTE 7 - LONG-TERM OBLIGATIONS (Continued)**

At the date of refunding, \$30,608,490 was deposited in an irrevocable trust to provide for all future debt service payments on the refunded 2002 School improvement Bonds, the 2004 School Improvement Bonds, and the 2005 Library Improvement Bonds. The balance of the outstanding bonds refunded was removed from the District's financial statements, and as of June 30, 2012, the refunded bonds have been paid in full. The advance refunding serial and capital appreciation bonds were issued with a premium in the amount of \$371,698 and \$1,437,243 respectively, which will be reported as an increase to bonds payable. The advance refunding term bonds were issued with a discount of \$306,814 which will be reported as a decrease to bonds payable. These amounts are being amortized to interest expense over the life of the bonds using the straight-line method. The amortization of the premium and discount for fiscal year 2016 was \$135,597 and \$6,136. Issuance costs associated with the bond issue were \$358,608. The refunding resulted in a difference between the net carrying amount of the debt and the acquisition price of \$925,082. The issuance resulted in a difference (savings) between the cash flows required to service the old debt and the cash flows required to service the new debt of \$1,971,224. The issuance resulted in an economic gain of \$1,097,604.

On September 3, 2015, the District advance refunded \$10,520,000 of the serial bonds, and \$16,460,000 of the term bonds, leaving only the capital appreciation bonds outstanding. All of the advanced refunded bonds as well as the unamortized premium, issuance costs, and unamortized deferred amount of refunding were removed from the financial statements of the District.

The capital appreciation bonds will mature December 1, 2016 and December 1, 2017. These bonds were purchased at a premium at the time of issuance and, at maturity all compound interest is paid and the bond holder collects the face value. However, since interest is technically earned and compounded semi-annually, the value of the bond increases. Therefore, as the value increases, the accretion is booked as principal. The maturity amount of the bonds is \$2,660,000. The fiscal year 2016 accretion amount is \$386,554.

The total principal and interest requirements to retire the 2007 Advance Refunding General Obligation Bonds are as follows:

Fiscal Year		
Ending June 30,	 Principal	 Interest
2017	\$ 925,000	\$ -
2018	1,735,000	-
Total	\$ 2,660,000	\$ -

### **2014 Current Refunding Bonds**

On April 16, 2014, the District issued \$1,300,000 of Current Refunding General Obligation Bonds that were issued to refund the 2004 School Improvement Bonds. The \$1,300,000 bond issue consists of serial bonds. The bonds were issued for a five-year period with a final maturity at December 1, 2019. The balance of the outstanding bonds refunded was removed from the District's financial statements, and as of June 30, 2014, the refunded bonds have been paid in full. The refunding serial bonds were issued with a premium in the amount of \$19,304, which will be reported as an increase to bonds payable. Issuance costs associated with the bond issue were \$19,304. The refunding resulted in a difference between the net carrying amount of the debt and the acquisition price of \$137,068. The issuance resulted in a difference (savings) between the cash flows required to service the old debt and the cash flows required to service the new debt of \$152,411. The issuance resulted in an economic gain of \$128,974.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### **NOTE 7 - LONG-TERM OBLIGATIONS (Continued)**

The total principal and interest requirements to retire the 2014 Current Refunding General Obligation Bonds are as follows:

Fiscal Year		
Ending June 30,	Principal	Interest
2017	\$ -	\$ 21,012
2018	-	21,013
2019	555,000	16,156
2020	565,000	5,650
Total	\$ 1,120,000	\$ 63,831

### **Series 2015 Refunding Bonds**

On September 3, 2015, the District issued \$23,615,000 of Advance Refunding General Obligation Bonds to partially refund the Series 2007 Advance Refunding Bonds. The entire bond issue consists of serial bonds carrying an interest rate of five percent. The bonds were issued for a seventeen-year period with a final maturity at December 1, 2031. At the date of refunding, \$27,583,822 was deposited in an irrevocable trust to provide for all future debt service payments on the refunded Series 2007 Advance Refunding Bonds. The balance of the outstanding bonds refunded was removed from the District's financial statements, and as of June 30, 2016, the refunded bonds have been paid in full. The advance refunding serial bonds were issued with a premium in the amount of \$3,855,499, which will be reported as an increase to bonds payable, and bond issuance costs totaling \$184,821. The premium will be amortized to interest expense over the life of the bonds using the straight-line method and the bond issuance costs were expensed in fiscal year 2016. The refunding resulted in a difference between the net carrying amount of the debt and the acquisition price of \$607,874. The issuance resulted in a difference (savings) between the cash flows required to service the old debt and the cash flows required to service the new debt of \$3,532,887 representing an economic gain of \$2,636,741.

The total principal and interest requirements to retire the Series 2015 Refunding Bonds are as follows:

Fiscal Year				
Ending June 30,	Pri	ncipal		Interest
2017	\$	_	\$	1,180,750
2018		-		1,180,750
2019	1,00	00,000		1,155,750
2020	1,00	5,000		1,105,625
2021	1,65	55,000		1,039,125
2022-2026	9,60	5,000		3,834,625
2027-2031	9,16	60,000		1,271,000
2032	1,19	00,000		29,750
Total	\$ 23,615	5,000	\$ 1	10,797,375

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### **NOTE 7 - LONG-TERM OBLIGATIONS (Continued)**

### **2008 Energy Conservation Notes**

On June 12, 2008, the District issued \$2,000,000 in unvoted Energy Conservation Notes, under the authority of Ohio Revised Code sections 133.06(G) and 3313.46(B). The Energy Conservation Notes were issued for the purpose of purchasing and installing energy conservation measures. These energy conservation measures include roofing and HVAC improvements. The energy conservation notes mature June 12, 2018. The debt will be retired through reductions in energy consumption and cost savings attributed to the installation of the energy conservation improvements.

The total principal and interest requirements to retire the 2008 Energy Conservation Notes are as follows:

Principal	]	Interest
\$ 224,072	\$	15,667
231,772		7,966
\$ 455,844	\$	23,633
	\$ 224,072 231,772	\$ 224,072 \$ 231,772

The District's overall legal debt margin at June 30, 2016, was \$9,764,908, with an unvoted debt margin of \$443,816. The District was approved as a special needs district by the Ohio Department of Education. This approval was granted based on projected tax valuation growth figures submitted by the District to the Ohio Department of Education, which is used to calculate the legal debt margin.

Bonds and Notes are paid from the debt service fund and capital leases are paid from the permanent improvement fund. The District pays obligations related to employee compensation from the fund benefitting from their service, except for compensated absences, which are paid from the General Fund.

#### **NOTE 8 – CAPITAL LEASE OBLIGATIONS**

During fiscal year 2015, the District entered into capital lease agreements for three new school buses. Principal payments in fiscal year 2016 totaled \$70,135 in the governmental funds. The agreements provide for minimum annual rental payments as follows:

Fiscal Year		
Ending June 30,	Principal	Interest
2017	\$ 91,961	\$ 5,148
2018	72,061	1,768
Total	\$ 164,022	\$ 6,916

The equipment was originally capitalized in the amount of \$284,312. This amount represents the present value of the minimum lease payments at the time of acquisition. At fiscal year-end, book value of the equipment was \$245,887, which includes accumulated depreciation of \$38,425.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### NOTE 9 - RECEIVABLES

Receivables at year-end consisted of property taxes, intergovernmental, interest, and accounts. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of property taxes, the stable condition of State programs, and the current year guarantee of federal funds. All receivables except property taxes are expected to be received within one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

### NOTE 10 – DEFINED BENEFIT PENSION PLAN

#### Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### **NOTE 10 – DEFINED BENEFIT PENSION PLAN (Continued)**

### Plan Description - School Employees Retirement System (SERS)

Plan Description – District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, standalone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at <a href="https://www.ohsers.org">www.ohsers.org</a> under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017		
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; of Age 57 with 30 years of service credit		
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; of Age 60 with 25 years of service credit		
* Mambers with 25 years of service credit as of August 1, 2017, will be included in this plan				

<sup>\*</sup> Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2016, the allocation to pension, death benefits, and Medicare B was 13.18 percent. The remaining 0.82 percent of the 14 percent employer contribution rate was allocated to the Health Care Fund.

The District's contractually required contribution to SERS was \$446,206 for fiscal year 2016. Of this amount \$17,877 is reported as an intergovernmental payable.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### NOTE 10 – DEFINED BENEFIT PENSION PLAN (Continued)

### Plan Description - State Teachers Retirement System (STRS)

Plan Description – District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at <a href="https://www.strsoh.org">www.strsoh.org</a>.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### **NOTE 10 – DEFINED BENEFIT PENSION PLAN (Continued)**

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2016, plan members were required to contribute 13 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2016 contribution rates were equal to the statutory maximum rates.

The District's contractually required contribution to STRS was \$1,643,432 for fiscal year 2016. Of this amount, \$188,279 is reported as an intergovernmental payable.

### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	SERS	STRS	Total
Proportionate Share of the Net			
Pension Liability	\$5,743,529	\$30,900,425	\$36,643,954
Proportion of the Net Pension			
Liability	0.1006560%	0.11180787%	
Pension Expense	\$433,166	\$1,906,642	\$2,339,808

At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS	STRS	Total
<b>Deferred Outflows of Resources</b>		_	
Differences between expected and			
actual experience	\$89,459	\$1,409,297	\$1,498,756
Change in proportionate share	360,080	-	360,080
District contributions subsequent to the			
measurement date	446,206	1,643,432	2,089,638
Total Deferred Outflows of Resources	\$895,745	\$3,052,729	\$3,948,474
Deferred Inflows of Resources			
Net difference between projected and			
actual earnings on pension plan investments	\$132,466	\$2,234,410	\$2,366,876
Change in proportionate share		69,678	\$69,678
Total Deferred Inflows of Resources	\$132,466	\$2,304,088	\$2,436,554

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### NOTE 10 – DEFINED BENEFIT PENSION PLAN (Continued)

\$2,089,638 reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	SERS	STRS	Total
Fiscal Year Ending June 30:			
2017	\$64,189	(\$522,743)	(\$458,554)
2018	64,189	(522,743)	(458,554)
2019	78,751	(522,745)	(443,994)
2020	109,944	673,440	783,384
Total	\$317,073	(\$894,791)	(\$577,718)

### **Actuarial Assumptions - SERS**

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2015, are presented below:

Wage Inflation 3.25 percent Future Salary Increases, including inflation 4.00 percent to 22 percent COLA or Ad Hoc COLA 3 percent Investment Rate of Return

7.75 percent net of investments expense, including inflation Entry Age Normal Actuarial Cost Method

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### **NOTE 10 – DEFINED BENEFIT PENSION PLAN (Continued)**

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	1.00 %	0.00 %
US Stocks	22.50	5.00
Non-US Stocks	22.50	5.50
Fixed Income	19.00	1.50
Private Equity	10.00	10.00
Real Assets	10.00	5.00
Multi-Asset Strategies	15.00	7.50
Total	100.00 %	

**Discount Rate** The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

	Current		
	1% Decrease	Discount Rate	1% Increase
	(6.75%)	(7.75%)	(8.75%)
District's proportionate share			
of the net pension liability	\$7,964,211	\$5,743,529	\$3,873,532

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### **NOTE 10 – DEFINED BENEFIT PENSION PLAN (Continued)**

### Actuarial Assumptions - STRS

The total pension liability in the June 30, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation

2.75 percent

2.75 percent

2.75 percent at age 70 to 12.25 percent at age 20

7.75 percent, net of investment expenses

Cost-of-Living Adjustments

(COLA)

2.75 percent at age 20

7.75 percent, net of investment expenses

2 percent simple applied as follows: for members retiring before

August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2015, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10-year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return	
Domestic Equity	31.00 %	8.00 %	
International Equity	26.00	7.85	
Alternatives	14.00	8.00	
Fixed Income	18.00	3.75	
Real Estate	10.00	6.75	
Liquidity Reserves	1.00	3.00	
Total	100.00 %		

Discount Rate The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2015. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2015. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2015.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### **NOTE 10 – DEFINED BENEFIT PENSION PLAN (Continued)**

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

	Current		
	1% Decrease	Discount Rate	1% Increase
	(6.75%)	(7.75%)	(8.75%)
District's proportionate share			
of the net pension liability	\$42,923,021	\$30,900,425	\$20,733,527

### (c) Social Security System

Effective July 1, 1991, all employees not otherwise covered by School Employees Retirement System or State Teachers Retirement System have an option to choose Social Security. As of June 30, 2016, no members of the Board of Education have elected Social Security. The District's liability is 6.2 percent of wages paid.

### **NOTE 11 – POSTEMPLOYMENT BENEFITS**

### (a) School Employees Retirement System

### **Postemployment Benefits**

In addition to a cost-sharing multiple-employer defined benefit pension plan the School Employees Retirement System of Ohio (SERS) administers a postemployment benefit plan.

### **Health Care Plan**

Sections 3309.375 and 3309.69 of the Ohio Revised Code permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plans from various vendors, including HMOs, PPOs, Medicare Advantage and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively.

The Ohio Revised Code provides the statutory authority to fund SERS' postemployment benefits through employer contributions. Active members do not make contributions to the postemployment benefit plan.

The Health Care Fund was established under, and is administered in accordance with Internal Revenue Code 105(e). Each year after the allocation for statutorily required pensions and benefits, the Retirement Board allocates the remainder of the employer 14% contribution to the Health Care Fund to be used to subsidize the cost of health care coverage. For the year ended June 30, 2016, the health care allocation is 0.00%.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### **NOTE 11 – POSTEMPLOYMENT BENEFITS (Continued)**

An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. By statute no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2016, the minimum compensation level was established at \$23,000. The surcharge, added to the unallocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. District contributions assigned to health care, including the surcharge, for the years ended June 30, 2016, 2015, and 2014 were \$50,330, \$75,079 and \$47,810, respectively. The entire amount has been contributed for fiscal years 2015 and 2014. For fiscal year 2016, the entire amount is reported as an intergovernmental payable.

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

The financial reports on SERS' Health Care plan is included in its Comprehensive Annual Financial Report. The report can be obtained on SERS' website at <a href="https://www.ohsers.org">www.ohsers.org</a> under Employers/Audit Resources.

### (b) State Teachers Retirement System

<u>Plan Description</u> – STRS administers a pension plan that is comprised of: a Defined Benefit Plan, a self-directed Defined Contribution Plan, and a Combined Plan that is a hybrid of the Defined Benefit Plan and the Defined Contribution Plan.

Ohio law authorizes STRS to offer a cost-sharing, multiple employer health care plan. STRS Ohio provides access to health care coverage to eligible retirees who participated in the Defined Benefit or Combined Plans. Coverage under the program includes hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums.

Pursuant to Chapter 3307 of the Revised Code, the Retirement Board has discretionary authority over how much, if any, of the associated health care costs will be absorbed by STRS Ohio. All health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium.

STRS Ohio issues a stand-alone financial report. Interested parties can view the most recent Comprehensive Annual Financial Report by visiting <a href="https://www.strsoh.org">www.strsoh.org</a> or by requesting a copy by calling toll-free 1-888-227-7877.

<u>Funding Policy</u> — Under Ohio law, funding for post-employment health care may be deducted from employer contributions. Of the 14% employer contribution rate, 1% of covered payroll was allocated to post-employment health care for the years ended June 30, 2014 and 2013. Effective July 1, 2014, 0% of covered payroll was allocated to post-employment health care. The 14% employer contribution rate is the maximum rate established under Ohio law.

The District's contractually required health care contributions to STRS for fiscal years 2016, 2015, and 2014 were \$0, \$0, and \$112,753, respectively. The entire amount has been contributed for each fiscal year.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### **NOTE 12 – EMPLOYEE BENEFITS**

### (a) Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per fiscal year, depending upon length of service. Accumulated vacation time may be carried forward for the Treasurer and upon approval of the Superintendent, for all other classified employees. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time.

Teachers, administrators, and classified employees can earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 210 days for all personnel. Upon retirement, payment is made for one-third of accrued, but unused sick leave credit to a maximum of 50 days for classified and certified employees.

### (b) Health Care Benefits

The District provides health, drug, and dental insurance for all eligible employees through Delta Dental. The District pays medical and drug monthly premiums for staff (family and single coverage). The District pays the total monthly premium for dental insurance coverage for family and single employees. The District also provides vision insurance to its employees through VSP. The District pays the total premium for vision coverage for family and single.

The District provides life insurance and accidental death and dismemberment insurance to most employees through the Metropolitan Educational Technology Association Group Life Insurance. Premiums are paid from the same funds that pay the employees' salaries.

### **NOTE 13 – RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the fiscal year, the District contracted with Southwestern Ohio Educational Purchasing Counsel for boiler and machinery, inland marine, crime insurance, general liability insurance, and fleet insurance. Coverage provided by is as follows:

Building and Contents-Replacement Cost (\$5,000 deductible)	\$83,470,152
Inland Marine (\$5,000 deductible)	
Property	1,000,000
Crime Insurance (\$5,000 deductible)	
Money & Securities	500,000
Employee Dishonesty	500,000
Forgery or Alteration	500,000
General Liability	
Per Occurrence	1,000,000
Aggregate Per Year	3,000,000
Education Umbrella Liability Policy for General Liability	
Per Occurrence	1,000,000
Aggregate Per Year	3,000,000
Fleet Insurance (\$1,000 deductible)	1,000,000
Per Occurrence	1,000,000

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

### **NOTE 13 – RISK MANAGEMENT (Continued)**

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in insurance coverage from the last year.

In fiscal year 2016, the District participated in the Metropolitan Educational Technology Association (META) group insurance purchasing pool (Note 15). META helps member school districts receive discounted rates on various items such as their life, property, boiler and machinery, inland marine, crime, and freight insurance, services, supplies, and other items. The META has over 200 members which include school districts, joint vocational schools, educational service centers and libraries covering 37 counties in Central Ohio. The governing board of META is composed of either the superintendent, a designated representative, or a member of the board of education for each participating school district in Franklin County, and one representative from each county outside Franklin County.

For fiscal year 2016, the District participated in the Ohio School Boards Association Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool (Note 15). The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State board on the rate for the GRP rather than its individual rate. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria.

### NOTE 14 – JOINTLY GOVERNED ORGANIZATIONS

- (a) Licking Area Computer Association The District is a participant in the Licking Area Computer Association (LACA) which is a computer consortium. LACA is an association which services fourteen entities within the boundaries of Licking, Knox, and Muskingum Counties. These entities consist of public school districts, private schools, and educational service centers. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of LACA consists of the superintendents from all participating districts. The continued existence of LACA is not dependent on the District's continued participation and the District has no equity interest in the Association. The LACA constitution states that any school district withdrawing from the Association prior to dissolution forfeits their claim to the Association's capital assets. The District's total payments to LACA for computer services during fiscal year 2016 were \$127,759. Financial statements for LACA can be obtained from their fiscal agent the Career and Technology Education Centers of Licking County, 150 Price Road, Newark, OH 43055.
- (b) Career and Technology Education Centers of Licking County The Career and Technology Education Centers of Licking County is a jointly governed organization providing vocational education to its member school districts. The Career and Technology Education Centers of Licking County is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of three representatives from the Licking County Educational Service Center, two from the Newark City School District, one from the Heath City School District, and one from the Granville Exempted Village School District, which possesses its own budgeting and taxing authority. During 2016, the District made no contributions to the Career and Technology Education Centers of Licking County. To obtain financial information write to the Career and Technology Education Centers of Licking County, Ben Streby, who serves as Treasurer, at 150 Price Road, Newark, Ohio 43055.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 14 – JOINTLY GOVERNED ORGANIZATIONS

- (c) Metropolitan Educational Technology Association The District participates in the Metropolitan Educational Technology Association (META), a jointly governed organization. The organization is composed of over 200 members which includes school districts, joint vocational schools, educational service centers, and libraries covering 37 counties in Central Ohio. The META helps its members purchase services, insurances, supplies, and other items at a discounted rate. The governing board of META is composed of either the superintendent, a designated representative or a member of the board of education for each participating school district in Franklin County and one representative from each county outside of Franklin County. Each year, the participating school districts pay a membership fee to META to cover the costs of administering the program. The District's membership payment to META for fiscal year 2016 was \$479. Financial information may be obtained from the Metropolitan Educational Technology Association, Dave Varda, who serves as Chief Financial Officer, at 2100 Citygate Dr., Columbus, OH 43219.
- (d) Newark-Granville Community Authority The Newark-Granville Community Authority (Authority) is a jointly governed organization created under Section 349.03, Ohio Revised Code. The Authority was created for the purposes of encouraging the orderly development of a well-planned, diversified and economically sound new community in central Licking County. The Authority is operated by a Board of Trustees (Board) that is comprised of seven residents of the community who are elected to two-year terms. The revenue source of this organization consists of special assessments imposed by Licking County on Park Trails Community. The special assessment is based on a \$250,000 average home value within the community, which results in a minimum annual community development charge of \$455 per home for 20 consecutive years.

#### **NOTE 15 – INSURANCE PURCHASING POOLS**

#### (a) Ohio School Boards Association Workers' Compensation Group Rating Plan

The District participates in the Ohio School Boards Association (OSBA) Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State, based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Sheakley, Inc. provides administrative, cost control and actuarial services to the GRP. The GRP's business and affairs are conducted by a three member Board of directors consisting of the President, the President-Elect and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 15 – INSURANCE PURCHASING POOLS (Continued)

#### (b) Metropolitan Educational Technology Association Group Insurance Pool

The District participates in the Metropolitan Educational Technology Association (META) insurance purchasing pool. The META helps its members purchase services, insurances, supplies, and other items at a discounted rate. The organization is composed of over 200 members which includes school districts, joint vocational schools, educational service centers, and libraries covering 37 counties in Central Ohio. The governing board of META is composed of either the superintendent, a designated representative or a member of the board of education for each participating school district in Franklin County and one representative from each county outside of Franklin County. Each year, the participating school districts pay a membership fee to META to cover the costs of administering the program.

#### **NOTE 16 – RELATED ORGANIZATION**

#### **Granville Schools Education Foundation, Incorporated**

The Granville Schools Education Foundation, authorized under Ohio Revised Code Chapter 1702, is a independent nonprofit corporation created in 1994. The Foundation's purpose is to improve education for the students of Granville Schools. The Foundation is governed by a Board of Trustees appointed by the Granville Exempted Village School District Board of Education. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel and does not depend on the District for operational subsidies. The District has no ability to impose its will on the organization nor does a burden/benefit relationship exist. Financial information can be obtained from the Granville Schools Education Foundation, Amy Mock, who serves as Executive Director, at P.O. Box 84, Granville, Ohio 43023.

#### **NOTE 17 – COMMITMENTS AND CONTINGENCIES**

- (a) Grants The District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds.
- (b) Litigation The District is currently not a party to any material legal proceedings.
- (c) Encumbrances At fiscal year-end, outstanding encumbrances in the General Fund, Debt Service Fund, and Other Governmental Funds were \$393,537, \$0, and \$570,360, respectively.
- (d) Foundation Funding District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for the 2014-2015 school year, traditional school districts must comply with minimum hours of instruction, instead of number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the District, which can extend past the fiscal year end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2016 Foundation funding for the District; therefore, the financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or liability of the District.

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 18 - FUND DEFICIT

The following funds had a deficit fund balance at June 30, 2016:

Deficit Balance			
\$	(9,447) (1,261)		

These deficit fund balances are the result of the recognition of payables in accordance with generally accepted accounting principles. The general fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

#### **NOTE 19 - INTERFUND TRANSACTIONS**

During the fiscal year, the District transferred \$16,270 from the General Fund to the Food Service Fund to subsidize operations. In addition, the District transferred excess debt service funds, totaling \$350,000, from the Debt Service Fund to the Permanent Improvement Fund, as authorized by the Budget Commission and the District's Board. Interfund transfers between governmental funds are eliminated on the government-wide financial statements.

#### **NOTE 20 – SET-ASIDE CALCULATIONS**

The District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the purchase an equal amount for the acquisition and construction of capital improvements.

The following cash basis information describes the change in the year-end set-aside amounts for capital acquisition. Disclosure of this information is required by State statute.

Set-aside cash balance as of June 30, 2015	\$ -
Current fiscal year set-aside requirement	415,178
Current Year Offsets	(415,178)
Qualifying Disbursements	-
Total	\$ 
Balance Carried Forward to FY 2017	\$ _

Capital acquisition offsets presented in the table were limited to those necessary to reduce the fiscal year-end balance to zero. Although the District had offsets during the fiscal year that would have reduced the set-aside amount for capital acquisitions to below zero, this extra amount may not be used to reduce the set-aside requirement of future years, therefore the District has chosen not to present them.

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 21 – CHANGE IN ACCOUNTING PRINCIPLES

For fiscal year 2016, the District implemented GASB Statement No. 72 "Fair Value Measurement and Application" which enhances comparability of financial statements among governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepter valuation techniques. This statement also enhances fair value application guidance and related disclosures in order to provide information to financial statement users about the impact of fair value measurements on a government's financial position. The implementation of this statement did have a significant effect on the financial statements of the District.

For fiscal year 2016, the District implemented GASB Statement No. 76 "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments" which improves financial reporting be (1) raising the category of GASB Implementation Guides in the GAAP hierarchy, thus providing for broader public input on implementation guidance; (2) emphasizing the importance of analogies to authoritative literature when the accounting treatment for an event is not specified in authoritative GAAP; and (3) requiring the consideration of consistency with the GASB Concepts Statements when evaluating accounting treatments specified in non-authoritative literature. The implementation of this statement did not have an effect on the financial statements of the District.

For fiscal year 2016, the District implemented GASB Statement No. 79 "Certain External Investment Pools and Pool Participants" which establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. The implementation of this statement did not have a significant effect on the financial statements of the District.

#### **NOTE 22 – SUBSEQUENT EVENTS**

On November 15, 2016, the District entered into an agreement with Ameresco, Inc. to perform a project consisting of certain energy conservation services and installations, including replacing failed heating units in the high school building. Ameresco has agreed to perform the scope of services at a contract cost of \$1,775,986.

On December 15, 2016, the District closed on a loan with Park National Bank, totaling \$2 million, to finance the energy project. The loan carries an interest rate of 2.51 percent and matures on December 1, 2031.

COMBINING STATEMENTS – NONMAJOR GOVERNMENTAL FUNDS

#### DESCRIPTION OF FUNDS NON-MAJOR GOVERNMENTAL FUNDS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### **Non-major Governmental Funds**

Non-major Governmental Funds account for revenues from specific sources, which legally, or otherwise, are restricted to expenditures for specific purposes. A description of the District's Non-major Governmental Funds follows:

**Permanent Improvement Fund** - A fund provided to account for all transactions related to acquiring, constructing, or improving school facilities.

**Food Service Fund** - A fund used to account for the financial activity related to the District's food service operation.

**Program Donations Fund** - A fund used to account for the receipt and expenditure of program donations that can be expended for school district programs.

**Public School Support Fund** – A fund provided to account for specific local revenue sources, other than taxes or expendable trusts (i.e. profits from vending machines, sales of pictures, etc.). In accordance with Governmental Accounting Standards Board Statement No. 54, this fund is combined with the General Fund for financial reporting purposes.

Other Grants Fund – A fund used to account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specified purposes.

Classroom Facilities Maintenance Fund - A fund used to account for the proceeds of a levy for the maintenance of facilities.

**District Managed Student Activity Fund** - A fund provided to account for those student activity programs which have student participation in the activity but do not have student management of the programs. This fund would usually include athletic programs but could also include the band, cheerleaders, flag corps, and other similar types of activities.

**Auxiliary Services Fund** - A fund used to account for monies which provide services and materials to pupils attending non-public schools within the school district.

**Data Communications Fund** - A fund used to account for monies received in order for the District to obtain access to the Ohio Educational Computer Network.

**Vocational Education Enhancement Fund** – A fund used to account for Vocational Education Enhancements that: 1) expand the number of students enrolled in tech prep programs, 2) enable students to develop career plans, to identify initial educational and career goals, and to develop a career passport which provides a clear understanding of the student's knowledge, skills, and credentials to present to future employers, universities, and other training institutes, and 3) replace or update equipment essential for the instruction of students in job skills taught as part of a vocational program or programs approved for such instruction by the State Board of Education.

**Title VI-B IDEA Fund** - A fund used to account for federal funds used to assist states in providing an appropriate public education to all children with disabilities.

#### DESCRIPTION OF FUNDS NON-MAJOR GOVERNMENTAL FUNDS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

**Title I Disadvantaged Children Fund** - A fund used to provide financial assistance to State and Local educational agencies to meet the special needs of educationally deprived children. Included are the Even Start and Comprehensive School Reform programs.

**Title II-A Improving Teacher Quality Fund** - A fund used to account for monies to hire additional classroom teachers in grades 1 through 3, so that the number of students per teacher will be reduced.

**Miscellaneous Federal Grants Fund** - A fund used to account for various monies received through state agencies from the federal government or directly from the federal government which are not classified elsewhere. A separate cost center must be used for each grant.

#### **Statistical Section**

This part of Granville Exempted Village School District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

#### **Contents**

#### **Financial Trends**

These schedules contain trend information to help the reader understand how the District's financial position has changed over time.

#### **Revenue Capacity**

These schedules contain information to help the reader understand and assess the factors affecting the District's ability to generate its most significant local revenue source(s), the property tax.

#### **Debt Capacity**

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

#### **Economic and Demographic Information**

These schedules offer economic and demographic indicators to help the reader understand the environment within which the District's financial activities take place.

#### **Operating Information**

These schedules contain service data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

**Sources:** Unless otherwise noted, the information in these schedules is derived from the financial statements for the relevant year.

#### **Granville Exempted Village School District**

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Through 2008, personal property tax was assessed on all tangible personal property used in business in Ohio. The assessed value of public utility property ranges from 24 percent of true value to 88 percent, depending on the type of property. General business tangible personal property tax began being phased out in tax year 2006. The listing percentage was reduced to 18.75 percent for tax year 2006, 12.5 percent for tax year 2007, 6.25 percent for tax year 2008 and zero for tax year 2009.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10 percent, 2 1/2 percent and homestead exemptions before being billed.

Values are shown net of exempt property.

The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year.

Rates may only be raised by obtaining the approval of a majority of the voters at a public election.
