Granville

Schools

September 24, 2020

To the Citizens and Board of Education of the Granville Exempted Village School District:

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the Granville Exempted Village School District (the "District"). This CAFR, which includes a clean opinion unmodified from the Auditor of State of Ohio, conforms to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with District's management. To the best of our knowledge and belief, this CAFR and the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the Independent Auditor's Report.

This report includes all funds of the District. The District provides a full range of traditional educational programs, services and facilities. These include elementary and secondary curriculum at the general, college preparatory and vocational levels, a broad range of co-curricular and extracurricular activities, special education programs and facilities.

In addition to providing these general activities the District has administrative responsibility for state funds distributed to Granville Christian Academy, a private school located within the District boundaries. In accordance with GASB Statement 24, this responsibility is included in the reporting entity as a special revenue fund. While this organization shares operational and service similarity with the District, both are separate and distinct entities. Because of their independent nature, this organization's financial statements are not included in this report.

#### PROFILE OF THE SCHOOL DISTRICT

The District was organized in the late 1800's and is a fiscally independent political subdivision of the State of Ohio. The District is a public school system located in Licking County. The District's area is approximately 48 square miles and includes all of the Village of Granville and Granville Township as well as portions of the Cities of Newark and Heath and portions of Newark, Newton, McKean, St. Albans and Union Townships. Granville is a quaint New England-type village founded in 1805 by pioneers from Massachusetts and Connecticut. The area enjoys a favorable reputation for its educational institutions, including Denison University.

The Board of Education (the "Board") of the District is composed of five members elected at large by the citizens of the District. The Board serves as the taxing authority, contracting

body, and policy initiator for the operation of the District. The Board is responsible for the adoption of the tax budget, the annual operating budget and the approval of all expenditures of the District. The Board is a body politic and corporate, as defined by Section 3313.02 of the Ohio Revised Code, and has only those powers and authority conferred upon it by the Code.

The District had an enrollment of 2,520 students for the fiscal year end June 30, 2020 compared to 2,548 students for the fiscal year ended June 30, 2019. These students are housed in one elementary school (grades K to 3), an intermediate school (grades 4 to 6), a middle school (grades 7 to 8), and a comprehensive high school (grades 9 to 12). The age of the buildings varies with the oldest built in 1950 and the newest, the intermediate building, opened in fiscal year 2003. Additionally, the District operates an administration building, a transportation building, and a maintenance office.

The District estimates enrollment to be 2,564, 2,605, and 2,606 for the fiscal years ending June 30, 2021, 2022, and 2023 respectively. The District's enrollment is based on average daily attendance figures and do not include students living within the District's attendance area who attend charter, community, or private schools.

#### **ECONOMIC CONDITION AND OUTLOOK**

The full economic impact of COVID-19 is still unknown at this time. The closure of businesses from March-May 2020 has increased unemployment rates across the state and has negatively impacted income tax withholdings for the second quarter of 2020. The housing market in Granville has continued to improve and even through the recent uncertain times house prices are increasing.

Granville schools, in conjunction with Granville Village, Granville Township, and the local Chamber of Commerce, have begun discussions over the past several years about strategies for enhancing long-term economic sustainability. The purpose of these discussions are to foster a shared understanding and plan to implement the area's Comprehensive Plan which is intended to provide a framework through which the Granville Community can address issues related to the future of the community, including the extension of the Columbus region into Licking County, the strengthening of the tax base, and the expansion of housing opportunities, and assist with decisions that also serve to protect and preserve the rural character of the Township, the small town character of the Village, the quality and capacity of Granville schools, and other aspects of the community's quality of life.

The Granville area offers an excellent opportunity for business growth and expansion. The community contains a diverse group of employers, from small cottage home based businesses to major commercial/industrial and service corporations. Jobs are based in the college, area businesses, and many employers in the Columbus metropolitan area. Rich in higher education opportunities, Granville is the home of Denison University, and located just east of Granville, Central Ohio Technical College and The Ohio State University Newark campus. The largest employers in the District in terms of numbers of

employees are: Denison University, Granville Exempted Village Schools, and the Owens Corning Technical Center.

#### **DISTRICT FINANCIAL PLANNING**

In Fiscal Year 2020, the district spent more than it was taking in for the four straight year, largely due to the athletic complex project. In November 2018, the district passed a 0.75 percent traditional income tax that took effect January 1, 2019. The district received its first income tax payment in April 2019. As part of the levy plan, two levies that fund most of the district's capital budget will be allowed to expire at the end of 2019 and not be replaced.

To offset the revenue loss in the capital budget, 1.25 inside mills is being repurposed from general operations to the permanent improvement fund for 2018 taxes collected during 2019. An additional 1.5 mills were moved to permanent improvement for 2019.

#### **MAJOR ACCOMPLISHMENTS AND INITIATIVES**

#### **Accomplishments for Fiscal Year 2020**

#### **Financial**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2019. This was the ninth consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The district also received the Ohio Auditor's Award with Distinction for excellence in financial reporting.

Following failure of an income tax levy in May, the district went through about \$640,000 of budget adjustments that were put in place for the 2018/2019 school year to offset an anticipated budget shortfall.

#### **Instructional & Academic**

• Early literacy skill development is foundational for future academic success. Granville's balanced literacy framework resulted in 100% of students meeting Ohio's Third-Grade Guarantee requirement for promotion to 4<sup>th</sup> grade.

- GMS female students interested in STEM careers collaborated with a local business to complete a home heating and cooling competition by designing various ways to insulate a mock home.
- Advance Placement (AP) courses allow students to earn college credits at universities across the country by scoring at least a 3 (scale of 1 5) on rigorous end-of-course tests. Almost 400 AP tests were taken at GHS last year from 18 AP course offerings, and 81% of those scored a 3 or higher. 82 GHS students were named AP scholars for their performance on at least three AP tests.
- Using an average of local college tuition as a benchmark, the GHS 2020 AP scores alone could save GHS students well over \$1 million in college tuition.
- The GHS Class of 2020 achieved a mean ACT score of 25.5.
- Over 90% of graduates attended a 2- or 4-year institution, including admission to over 100 top universities. Scholarship offered to recent GHS classes, on average, total over \$6 million per year.
- The 2019-20 National Merit Program Awards include 7 National Merit Semi-Finalists and 3 Commended Students from GHS.
- The Global Scholars Diploma Program, which builds competencies of investigating the world, recognizing perspectives, communicating ideas and taking action, had over 80 students participate in Levels I – III of the program.
- Substance Abuse Prevention Testing was provided as an option to GMS and GHS families.
- International travel experiences for Global Language and Global Scholar students have taken GMS and GHS students to destinations such as China, Costa Rica, Italy, France, Spain, Peru and Cuba in the past decade. Future trip destinations are being planned for the Far East, India and Central/South America.
- An award-winning World languages program, based on performances by students on the 2020 National French, Latin and Spanish exams, now begins in Kindergarten with the continued implementation of the K – 6 Global Language Program.
- The Visual Design and Imaging career-technical (CTE) pathway was developed in collaboration with C-TEC and is being implemented at GHS. This makes the fourth CTE pathway available to students at GHS, joining our Business and Marketing, Programming, and Pre-Engineering pathways.

#### **Initiatives for Fiscal Year 2020**

#### **Financial**

The district will apply to receive the Certificate of Excellence in Financial Reporting for its fiscal year 2020 CAFR.

Granville passed an income tax at the November 2018 general election. The new levy will address both the district's long-term operating and capital needs. In 2018, the district was on the downside of the levy cycle from the additional property tax passed in 2013, spending more money than was being brought in. Additionally, the district is facing the loss of about 30 percent of its capital budget resources over the next seven years because of the expiration of a half-mill facilities levy and the phasing out of revenue from the special assessments on homes covered by the Newark-Granville Community Authority.

In January 2020, the treasurer's office began conversion from the current State Accounting Software to eFinancePLUS. All districts across the state will be required to transition off the current system over the next couple of years as it will no longer be supported by the State Software Development Team.

#### Instructional & Academic

Granville Exempted Village School District (GEVSD) identified Project-Based Learning (PBL) as the innovative practice that would have the greatest impact on our students and best prepare them for the future. Through PBL, students develop critical soft skills, such as working well with others, handling interpersonal conflicts, making thoughtful decisions, and solving complex problems. A key component of PBL is the treatment of failure as part of the learning process. Unlike traditional classroom settings, students are given the opportunity to make mistakes, learn from these mistakes, and improve their skills. These are essential traits in the global marketplace. With this in mind, we employ professional development that is based on high-leverage instructional approaches that are research-based. We have engaged the national faculty from the Buck Institute to provide the professional development on PBL. The Gold Standard of PBL professional development looks at the effective design elements and teacher practices that ensure high quality experiences and projects for students.

A direct product of our implementation of PBL is the creation of our Portrait of a Graduate. We worked with all stakeholder groups to identify what success skills students need to possess to be competitive in the 21<sup>st</sup> century work environment. The six competencies identified by those stakeholder groups are collaboration, resilience, empathy, responsibility, adaptability, and critical thinking. The staff spent the 2019-20 school year unpacking the definitions of these competencies to ensure shared understanding as we intentionally integrate them into existing instructional lessons and PBL projects. With the onset of online learning in the Spring of 2020, staff professional development focused on providing rigorous, authentic learning opportunities to students in both synchronous and asynchronous virtual teaching environments.

#### FINANCIAL POLICIES AND INFORMATION

The District courses of study will continue to be revised and periodically updated to provide students with instruction that is closely correlated with the State's academic content standards. To support the effective implementation of the new courses of study, additional financial resources will be needed to train teachers and to provide students with current learning materials and equipment.

#### **Internal Controls**

The management of the District is responsible for establishing and maintaining internal controls designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with Generally Accepted Accounting Principles. The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management.

#### **Budgetary Controls**

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the certificate of estimated resources, and the appropriations resolution, both of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control required by Ohio Revised Code is at the fund level. The level of budgetary control imposed by the District (the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level for all funds. Any budgetary modifications at these levels may only be made by resolution of the Board of Education. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts at year-end are carried forward to succeeding years and are not re-appropriated.

#### **Risk Management**

The District is enrolled in a group purchasing program for worker's compensation. In this plan, the individual premium rate is calculated based on the worker's compensation experience of the District. Additionally, the District carries all-risk property insurance on buildings and contents, fleet insurance on all rolling stock, liability and excess liability insurance coverage as well as officers' liability insurance, employee benefits liability, and workers' compensation intentional acts defense coverage. All employees are covered by

the District's blanket bond, and medical coverage for employees is provided through a conventional healthcare plan.

### Cash Management

Cash temporarily idle during the year was invested in demand deposits, certificates of deposit, and both the State Treasury Asset Reserve of Ohio (STAR Ohio) and money market accounts through Park National Bank.

#### **INDEPENDENT AUDIT**

Office of Management and Budget Uniform Guidance requires an annual audit by independent accountants. The Auditor of State of Ohio conducted the District's fiscal year 2020 audit. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Federal Single Audit Act Amendments of 1996 and related OMB Uniform Guidance. The Independent Auditors' Report on the basic financial statements is included in the financial section of this report.

#### **ACKNOWLEDGEMENTS**

This report has been compiled and prepared by the Treasurer's office staff. Special acknowledgement is given to the Superintendent of Schools and the Granville Board of Education for their leadership and commitment to the students, staff and community of the Granville Exempted Village School District.

Respectfully submitted,

Brittany Treolo, CFO/Treasurer

## MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2020 (UNAUDITED)

As management of the Granville Exempted Village School District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2020. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 3-10 of this report.

#### **Financial Highlights**

- The liabilities and deferred inflows of resources of the District exceeded its assets and deferred outflows of resources at the close of the most recent fiscal year by approximately \$15.6 million (negative net position).
- Net position increased \$4.9 million during the fiscal year.
- As of the close of the most recent fiscal year, the District's governmental funds reported combined ending fund balances of approximately \$8.0 million, an increase of \$1.4 million in comparison with the prior year.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements can be found on pages 31-32 of this report.

## MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2020 (UNAUDITED)

**Fund Financial Statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District's major funds are the general and debt service funds. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

#### Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 33-37 of this report.

## Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statement can be found on page 38 of this report.

**Notes to the basic financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements begin on page 39 of this report.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District's progress in funding its obligation to provide pension/OPEB benefits to its employees. Required supplementary information can be found on pages 81-96 of this report.

The combining and individual fund statements and schedules referred to earlier in connection with nonmajor governmental funds can be found on pages 97-115 of this report.

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2020 (UNAUDITED)

### **Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by approximately \$15.6 million at the close of the current fiscal year.

By far the largest portion of the District's net position reflects its investment in capital assets (e.g. land, buildings, furniture and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An analysis of fiscal year 2020 in comparison with fiscal year 2019 follows for the Statement of Net Position:

	2020		2019		Change	
Current and Other Assets	\$	35,876,641	\$	31,745,349	13.0%	
Capital Assets		32,626,243		30,268,826	7.8%	
Net OPEB Asset		1,969,849		1,943,779	1.3%	
Total Assets		70,472,733		63,957,954	10.2%	
Deferred Outflows of Resources						
Unamortized Amount on Refunding		436,909		474,901	-8.0%	
Pension		6,760,132		9,589,173	-29.5%	
OPEB		757,326		666,774	13.6%	
Total Deferred Outflows of Resources		7,954,367		10,730,848	-25.9%	
Current Liabilities		4,446,585		3,040,523	46.2%	
Long-Term Liabilities:						
Due Within One Year		2,078,245		1,876,330	10.8%	
Due in More Than One Year:

Net OPEB Liability		2,584,130		3,031,079	-14.7%	
Other Amounts		25,790,708		27,622,809	-6.6%	
Total Liabilities		67,252,341		68,366,158	-1.6%	
Deferred Inflows of Resources						
Property Taxes		21,267,388		21,562,899	-1.4%	
Pension		2,106,751		1,975,681	6.6%	
OPEB		3,369,157		3,260,731	3.3%	
Total Deferred Inflows of Resources		26,743,296		26,799,311	-0.2%	
Net Investment in Capital Assets		8,920,052		6,258,096	42.5%	
Restricted		5,546,991		3,535,883	56.9%	
Unrestricted		(30,035,580)		(30,270,646)	-0.8%	
Total Net Position		(15,568,537)	\$	(20,476,667)	-24.0%	

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2020 (UNAUDITED)

Capital assets, current liabilities, and net investment in capital assets all increased during the fiscal year. These increases are related to the District's Athletic Complex construction project.

Other long-term liabilities decreased in comparison with the prior fiscal year. This decrease primarily represents debt principal payments made during the fiscal year.

An analysis of fiscal year 2020 in comparison with fiscal year 2019 follows for the Statement of Activities:

### Governmental Activities

		2020		2019	Percent Change
	Ф	1.260.706	Ф	1 (02 402	25.60/
Charges for Services	\$	1,260,706	\$	1,693,403	-25.6%

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2020 (UNAUDITED)

#### Revenues

Charges for services decreased during the fiscal year. This decrease is a result in the District eliminating pay-to-play fees during fiscal year.

Capital Contributions increased during the fiscal year. This increase is a result of an increase in private donations for the Athletic Facilities Improvement Project.

Property tax revenues increased significantly in comparison with the prior fiscal year. This increase is primarily the result of fluctuations in property taxes available as an advance at fiscal year-end, compared to the prior fiscal year-end.

Income taxes increased during the fiscal year as a result of 2020 being the first full year of income tax collections.

### **Expenses**

Total Expenses increased significantly in comparison with the prior fiscal year. This increase is primarily the result of an increase in pension/OPEB expense from negative \$519,519 in fiscal year 2019 to \$4.5 million in fiscal year 2020, These increases are primarily the result of changes in benefit terms, changes in actuarial assumptions, and greater than expected returns on pension plan investments.

The Statement of Activities shows the cost of program services and charges for service and grants and contributions, offsetting those services. Table 3 shows the total cost of services and the net cost of services.

An analysis of fiscal year 2020 in comparison with fiscal year 2019 follows:

	Total Cost of Services 2020	Total Cost of Services 2019	Net Cost of Services 2020	Net Cost of Services 2019	
Program expenses	Scrvices 2020	Betvices 2019	Bet vices 2020	Services 2019	
Instructional	\$ 21,007,164	\$ 17,269,586	\$ 19,905,196	\$ 16,047,399	
Support services	13,123,463	11,177,487	12,726,634	10,867,236	
Non-instructional Services	904,062	1,049,639	35,837	51,194	
Extra Curricular Activities	1,593,460	1,307,756	(366,107)	780,199	
Interest	948,390	1,013,579	948,390	1,013,579	
Total	\$ 37,576,539	\$ 31,818,047	\$ 33,249,950	\$ 28,759,607	

This schedule clearly shows the dependence upon tax revenues and state subsidies for governmental activities. Only 11.5 percent of the governmental activities performed by the District are supported through program revenues such as charges for services, operating grants and capital grants and contributions. The remaining 88.5 percent is provided through general revenues such as property taxes and unrestricted grants and entitlements.

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2020 (UNAUDITED)

#### **Financial Analysis of the District's Funds**

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### **Governmental Funds**

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unrestricted fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

An analysis of fiscal year 2020 in comparison with fiscal year 2019 follows:

	Fund Balance June 30, 2020		Fund Balance June 30, 2019			Increase/ (Decrease)		
General Fund Debt Service Fund Building Fund Other Governmental Funds	\$	4,467,758 2,063,064 342,943 1,162,554	\$	3,092,111 1,926,142 38,338 1,598,366	_	\$	1,375,647 136,922 304,605 (435,812)	
Total	_\$_	8,036,319	_\$_	6,654,957	_	\$	1,381,362	

#### General Fund

During the current fiscal year, the fund balance in the District's General Fund increased by \$1.4 million compared with a \$1.8 million decrease in the previous fiscal year. This increase is primarily the result of fluctuations in property taxes available as an advance at fiscal year-end, compared with the prior fiscal year-ends and an increase in income tax collections.

#### **Debt Service Fund**

During the current fiscal year, the fund balance in the Debt Service Fund increased by \$136,922. This increase represents the amount in which debt service expenditures and transfers to other funds were less than property taxes and related revenues.

## **Building Fund**

During the current fiscal year, the fund balance in the Building Fund increased by \$304,605. This increase represents the amount in which private donations and transfers in exceeded Athletic Improvement project expenditures.

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2020 (UNAUDITED)

#### **General Fund Budget Information**

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

Actual revenues and other financing sources were less than Final Estimated Resources by \$197,726, or -1%, and Final Appropriations exceeded actual budgetary expenditures and other financing uses by \$196,044. The District did not amend the revenue budget throughout the fiscal year. Original budgeted expenditures were the same as final budgeted expenditures at fiscal year end.

#### **Capital Assets**

At the end of the fiscal year, the District had \$32.6 million (net of accumulated depreciation) invested in capital assets, an increase of approximately \$2.4 million in comparison with the prior fiscal year-end. This increase represents the amount in which current year acquisitions, totaling \$4.3 million, exceeded current year depreciation (approximately \$1.9 million) and net disposals of \$47,926. This investment in capital assets includes land, construction in progress, land improvements, buildings and improvements, furniture and equipment, and vehicles. Detailed information regarding capital asset activity is included in the Note 8 to the basic financial statements.

### **Debt**

At the end of the fiscal year, the District had total long-term debt outstanding of \$26.0 million, a decrease of approximately \$1.9 million in comparison with the prior fiscal year-end. This decrease represents current debt service payments and premium amortization. Detailed information regarding long-term obligations is included in Note 9 to the basic financial statements.

Under current state statutes, the District's general obligation bonded debt issues are subject to a legal limitation based on 9% of the total taxable valuation of real and personal property. As of June 30, 2020, the District's general obligation debt was below the legal limit.

### **Economic Factors**

In November 2018, the District passed an operating income tax levy of 0.75 percent for five years. The District's administration assures the community that we will continue to look for opportunities to be more efficient with the goal of extending this new revenue for as long as possible. We understand the importance and value of fiscal stewardship and transparency. We will also continue our advocacy efforts to create a more equitable school funding formula at the state level as well as expanding the local commercial base to offset the residential tax burden. All of these efforts will create a long-term sustainable future for the District and community.

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2020 (UNAUDITED)

## **Contacting the District's Financial Management**

This financial report is designed to provide our citizen's, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have any questions about this report or need additional financial information you may contact Brittany Treolo, Treasurer at Granville Exempted Village School District, 130 North Granger Street, P.O. Box 417, Granville, Ohio 43023. You may also email the treasurer at <a href="mailto:btreolo@granvilleschools.org">btreolo@granvilleschools.org</a>.

See accompanying notes to the basic financial statements.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30,2020

Net Change in Fund Balances - Total Governmental Funds	\$ 1,381,362
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.  Depreciation Expense Capital Outlay	(1,911,114) 4,316,457
The net effect of various transactions involving capital assets (i.e. contributions, sales, etc.)  Disposals	(47,926)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	
Charges for Services Interest Tuition and Fees Intergovernmental Property Taxes Income Taxes Donations	(3,041) 9,073 19,469 22,369 (36,535) 1,060,360 557,214
Some capital assets were financed through capital leases. In governmental funds, a capital lease arrangement is considered a source of financing, but in the statement of net position the lease obligation is reported as a liability.	(270,813)
Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows.	2,469,271
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities.	(4,937,976)
Except for amounts reported as deferred inflows/outflows, changes in the net OPEB asset/liability are reported as OPEB expense in the statement of activities.	406,483
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.	
Capital Lease Repayment Bond and Note Principal Repayments Amortization of Deferred Charge on Refunding Amortization of Bond Premium/Discount	86,411 1,703,333 (37,992) 242,577
Some expenses reported in the statement of activities, such as compensated absences payable and other accounts payable, do not require the use of current financial resources and therefore are not reported as expenditures in the funds.	(105.005)
Compensated Absences Accrued Interest	(125,927) 5,075
Change in Net Position of Governmental Activities	\$ 4,908,130

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### NOTE 1 – DESCRIPTION OF THE DISTRICT AND REPORTING ENTITY

Granville Exempted Village School District (the "District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The District operates under a locally elected Board form of government consisting of five members elected at-large for staggered four-year terms. The District provides educational services as authorized by State statute and Federal guidelines.

The District was established in the late 1800's. The District serves an area of approximately 48 square miles. It is located in Licking County and includes all of the Village of Granville and Granville Township as well as portions of the Cities of Newark and Heath and portions of Newark, Newton, McKean, St. Albans and Union Townships. It is staffed by 269 employees who provide services to 2,520 full time equivalent students. The District currently operates four instructional buildings, one administrative building, and one transportation building.

### **Reporting Entity:**

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For the Granville Exempted Village School District, this includes general operations and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District provides the budget, the issuance of debt, or the levying of taxes. The District has no component units.

The following activities are included within the reporting entity;

**Private School-** Granville Christian Academy, a private school, operates within the District boundaries. Current State legislation provides funding to this private school. These monies are received and disbursed on behalf of the private school by the Treasurer of the District, as directed by the private school in accordance with State rules and regulations. This activity is reflected in a special revenue fund for financial reporting purposes.

The District is associated with eight organizations, four of which are defined as jointly governed organizations, two as insurance purchasing pools, and two as related organizations. These organizations are the Licking Area Computer Association, Career and Technology Education Centers of Licking County, Metropolitan Educational Technology Association, the Newark-Granville Community Authority, the Ohio School Boards Association Workers' Compensation Group Rating Plan, the Metropolitan Educational Technology Association Group Insurance Pool, the Granville Schools Education Foundation, Incorporated, and Granville Public Library. These organizations are presented in Notes 15, 16, and 17 to the basic financial statements.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### (a) Government-wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities (the District has none), which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds (the District has none), and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column.

The District reports the following major governmental funds:

General Fund — The General Fund is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

*Debt Service Fund* — The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Building Fund — A fund used to account for the revenues and expenditures related to the Athletic Facilities Improvement Project. Expenditures recorded here represent the costs for constructing capital facilities.

Other Governmental Funds of the District account for food services, co-curricular activities, federal and state grants, and other resources.

*Proprietary Funds* – Proprietary funds consist of enterprise funds, which are used to report any activity for which a fee is charged to external users for goods or services, and internal service funds, which are used to allocate costs of centralized services. The District reports no proprietary funds.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fiduciary Funds — Fiduciary funds are used to account for assets held by the District in a trustee or agency capacity for others and therefore cannot be used to support the District's own programs. Fiduciary funds include pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. The District has two fiduciary funds both being agency funds. One accounts for the Newark-Granville Authority and Granville Public Library and the other accounts for student activities.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements; however, interfund services provided and used are not eliminated.

# (b) Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements, except agency funds which do not report results of operations and therefore have no measurement focus. Revenues are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are prepared using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available: property taxes available for advance, income taxes, tuition, grants and student fees.

### Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refundings and for pensions and other postemployment benefits (OPEB). A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 11 and 12.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, unavailable revenue, pension, and OPEB. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2020, but which were levied to finance fiscal year 2021 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental funds balance sheet. Unavailable revenue includes delinquent property taxes, income taxes, tuition and fees, and charges for services. These amounts are only reported on the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position (See Notes 11 and 12).

### Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation, are not recognized in governmental funds.

# (c) Budgetary Data

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the certificate of estimated resources and the appropriations resolution, each of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increases tax rates and the filing requirement is waived by the Licking County Auditor. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriations resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Board. The legal level of budgetary control has been established by the Board of Education at the fund level for all funds. Any budgetary modifications at this level may only be made by the Board of Education. Budgetary allocations at the function and object level within all funds are made by the Treasurer. Advances in/out are not required to be budgeted since they represent a temporary cash flow resource and are intended to be repaid.

The certificate of estimated resources may be amended during the year if the projected increases or decreases in revenue are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statement reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statement reflect the amounts on the amended certificate of estimated resources in effect at the time the final appropriations were passed by the Board.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (d) Cash and Investments

To improve cash management, cash received by the District is pooled and invested. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Interest in the pool is presented as "Pooled Cash and Cash Equivalents" on the financial statements. Investments of the District's cash management pool and investments with an original maturity of three months or less at the time they are purchased by the District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

The District has segregated investments for non-negotiable certificates of deposit held separate from the District's investments. These non-negotiable certificates of deposit are to be used to provide scholarships to graduating seniors. These investments are presented on the financial statements as "Investments in Segregated Accounts" since they are not deposited into the District treasury.

Investments are reported as assets. Accordingly, purchases of investments are not recorded as expenses, and sales of investments are not recorded as revenues. During the fiscal year, the District's investments were limited to State Treasury Asset Reserve of Ohio (STAR Ohio), money market funds, and negotiable certificates of deposit.

STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value.

Under existing Ohio statutes, all investment earnings are assigned to the general fund except those specifically related to certain trust funds, unless the Board of Education specifically directs interest to be recorded in other funds. Interest revenue was credited to the general fund and program donations fund during fiscal year 2020, totaling \$159,426 and \$420, respectively. The amount credited to the general fund includes \$101,634 assigned from other District funds.

#### (e) Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, laws of other governments, or imposed by law through constitutional provisions or enabling legislation. The District had no restricted cash and cash equivalents at year-end.

### (f) Inventory and Prepaid Items

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of purchased food held for resale. Donated commodities are presented at their entitlement value.

Payments made to vendors for services that will benefit periods beyond fiscal year-end are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year which services are consumed.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

At fiscal year-end, because inventory and prepaid items are not available to finance future governmental fund expenditures, the fund balance is reserved in the fund financial statements by an amount equal to the carrying value of the asset.

### (g) Capital Assets and Depreciation

Capital assets are reported in the government-wide financial statements. Capital assets are defined as assets with an initial, individual cost of more than \$5,000. As the District constructs or acquires additional capital assets each period, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. Donated capital assets are recorded at their acquisition value as of the date received. The District does not possess any infrastructure.

All reported capital assets, with the exception of land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Land Improvements	15 - 20
Buildings and Improvements	20 - 50
Furniture, Fixtures and Equipment	5 - 20
Vehicles	10 - 15

### (h) Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditure/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. These transfers are eliminated from the statement of activities.

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "due to/from other funds" and receivables and payables resulting from long-term interfund loans are classified as "advances to/from other funds". These amounts are eliminated in the statement of net position.

### (i) Accrued Liabilities and Long-Term Obligations

In general, governmental fund payables and accrued liabilities that once incurred are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, compensated absences will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year.

In the government-wide financial statements, all long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest rate method. Bonds payable are reported net of the applicable bond premium or discount.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as an other financing source. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. Long-term notes paid from the governmental funds are recognized as a liability in the fund financial statements since current resources are used to finance the debt.

### (j) Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' right to receive compensation is attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. The District records a liability for the accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at the fiscal year end, taking into consideration any limits specified in the District's termination policy. The District records a liability for accumulated unused sick leave for all employees having 10 or more years of current service with the District.

### (k) Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, net OPEB asset, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

### (l) Net Position

Net position represent the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net investment in capital assets consist of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted for other purposes include resources restricted for auxiliary services and state and federal grants restricted for specified purposes. None of the District's reported net position at June 30, 2020 was restricted by enabling legislation.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (m) Fund Balance

GASB Statement No. 54, *Fund Balance Reporting* became effective for years beginning after June 15, 2010. The objective of this Statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. This Statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

In accordance with this guidance, the District classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The District may use the following categories:

Nonspendable - resources that are not in a spendable form (inventory) or have legal or contractual requirements to maintain the balance intact (unclaimed funds).

Restricted - resources that have external purpose restraints imposed on them by providers, such as creditors, grantors, or other regulators.

Committed - resources that can be used only for specific purposes pursuant to constraints imposed by formal action (resolution) of the District's highest level of decision-making authority (Board).

Assigned - resources that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. This includes the residual balance of all governmental funds other than the General Fund that were not classified elsewhere above. In the General Fund, assigned amounts represent intended uses established by policies of the District Board of Education, which includes giving the Treasurer the authority to constrain monies for intended purposes.

Unassigned - residual fund balance within the General Fund not classified elsewhere above and all other governmental fund balances which have a negative fund balance.

The District applies restricted resources first when an expense is incurred for purposes which both restricted and unrestricted fund balance/net position is available. The District considers committed, assigned and unassigned fund balances, respectively, to be spent when expenditures are incurred for purposes for which any of the unrestricted fund balance classifications could be used.

### (n) Bond Premium and Discount/Accounting Gain or Loss

On government-wide statements, bond premiums are deferred and amortized over the term of the bonds. Bond premiums are presented as an addition to the face amount of the bonds. On the governmental fund financial statements, bond premiums are recognized in the current period.

For bond refundings resulting in the defeasance of debt reported in the government-wide financial statements, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. The accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as an addition to or reduction of the face amount of the new debt.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### **NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

### (o) Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during the fiscal year.

### (p) Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reported period. Actual results could differ from those estimates.

#### NOTE 3 – BUDGETARY BASIS OF ACCOUNTING

While the District is reporting financial position, results of operations, and changes in fund balances on the basis of accounting principles generally accepted in the United States of America (GAAP), the budgetary basis, as provided by law, is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual (Non-GAAP Basis) – General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

- 1. Revenues are recorded when received (budget basis) as opposed to when earned (GAAP basis).
- 2. Expenditures are recorded when paid (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures (budget basis) rather than assigned fund balance (GAAP basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund.

Net Change in Fund Balance						
GAAP Basis	\$	1,375,647				
Adjustments:						
Funds Budgeted as Other Funds		37,272				
Revenue Accruals		(1,058,381)				
Expenditure Accruals		140,125				
Other Financing Sources/Uses, Net		(1,576,095)				
Encumbrances		(950,340)				
Budgetary Basis	\$	(2,031,772)				

With the implementation of GASB Statement No. 54, *Fund Balance Reporting*, the District's Public School Support Fund, no longer meets the special revenue fund type criteria for reporting in the fiscal year-end external financial statements. As such, this fund is presented as part of the District's General Fund in the year-end financial statements. The budgetary comparison information in the fiscal year-end financial statements is the legally adopted budget for the general fund, without modification for the funds no longer meeting the special revenue criteria.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### NOTE 4 – DEPOSITS AND INVESTMENTS

Monies held by the District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the District treasury. Active monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Interim monies held by the District can be deposited or invested in the following securities:

- 1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2 percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio or Ohio local governments;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts:
- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 7. The State Treasurer's investment pool (STAR Ohio);
- 8. Commercial paper and bankers acceptances if training requirements have been met.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### **NOTE 4 – DEPOSITS AND INVESTMENTS (Continued)**

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions.

### **Deposits**

**Custodial Credit Risk** - In the case of deposits, this is the risk that, in the event of a bank failure, the District's deposits may not be returned.

At fiscal year-end, the carrying amount of the District's deposits was \$5,810,235 and the bank balance was \$6,116,545. Of the District's bank balance, \$5,866,494 was covered by the Federal Deposit Insurance Corporation (FDIC) and the remaining balance was uninsured and collateralized. The District's financial institution was approved for a reduced collateral rate of 50 percent through the Ohio Pooled Collateral System.

The District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or be protected by:

- 1. Eligible securities pledged to the District and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or
- 2. Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

#### **Investments**

At fiscal year-end, the District reported the following investments:

			Investment	t Maturities
	Measurement	Percent	Within	1 to 2
Investment Type	Value	of Total	1 Year	Years
Money Market Funds	\$ 60,516	1.69%	\$ 60,516	\$ -
STAR Ohio	1,523,616	42.51%	1,523,616	-
Negotiable Certificates of Deposit	2,000,000	55.80%	2,000,000	
Total	\$ 3,584,132	100%	\$ 3,584,132	\$ -

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### **NOTE 4 – DEPOSITS AND INVESTMENTS (Continued)**

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. All of the District's investments reported at fair value are valued using quoted market prices (Level 2 inputs).

In accordance with GASB Statement No. 79, the District's investment in STAR Ohio is reported at amortized cost, which approximates fair value. For the fiscal year ended June 30, 2020, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates.

Interest Rate Risk - The District's investment policy addresses interest rate risk to the extent that it allows the Treasurer to invest funds to a maximum maturity of five years. The Treasurer cannot make investments which he/she does not reasonably believe can be held until the maturity date. State statute requires that an investment matures within five years from the date of purchase, unless matched to a specific obligation or debt of the District, and that an investment must be purchased with the expectation that it will be held to maturity. The stated intent of the policy is to avoid the need to sell securities prior to maturity.

*Credit Risk* - STAR Ohio carries a rating of AAAm by Standard and Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The District's money market funds and negotiable certificates of deposit were not rated. The District has no investment policy that addresses credit risk.

*Concentration of Credit Risk* - The District places no limit on the amount it may invest in any one issuer. The District's investment percentages are noted in the table above.

#### **NOTE 5 – PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis while the District's fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility located in the school district. Real property tax revenue received in calendar year 2020 represents collections of calendar year 2019 taxes. Real property taxes received in calendar year 2020 were levied after April 1, 2019, on the assessed value listed as of January 1, 2019, the lien date. Assessed values for real property taxes are established by State law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2020 represents collections of calendar year 2019 taxes. Public utility real and tangible personal property taxes received in calendar year 2020 became a lien December 31, 2018, were levied after April 1, 2019 and are collected in 2020 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

# **NOTE 5 – PROPERTY TAXES (Continued)**

The District receives its property taxes from Licking County. The County Auditor periodically advances to the District its portion of taxes collected. Second-half real property tax payments collected by the County by June 30, 2020, are available to finance fiscal year 2020 operations. The amount available to be advanced can vary based on the date the tax bills are sent. Accrued property taxes receivable includes real property and public utility property which are measurable as of June 30, 2020 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources.

On the government-wide financial statements, collectible delinquent property taxes have been recorded as a receivable and revenue, while on fund financial statements the revenue has been reported as a deferred inflow of resources.

The assessed values upon which the fiscal year 2020 taxes were collected are:

	2	2019 First Half C	Collections	2020 First Half Collections			
		Amount Percent			Amount	Percent	
Real Estate	\$	502,871,513	96.85%	\$	508,247,409	96.16%	
Public Utility Personal		16,382,170	3.15%		20,310,460	3.84%	
Total	\$	519,253,683	100.00%	\$	528,557,869	100.00%	
Tax rate per \$1,000 of							
assessed valuation	\$	92.20		\$	89.40		

### **NOTE 6 – TAX ABATEMENTS**

Under Community Reinvestment Area (CRA) and other property tax abatements entered into by the City of Newark, the District's property tax revenues were reduced by \$1,246 during the fiscal year. Compensation payments received from the City during the fiscal year totaled \$262,108.

### **NOTE 7 – INCOME TAXES**

The District levies an operating tax of 0.75 percent for long-term operating and capital needs of the District. The tax was effective on January 1, 2019, and is for five years. Employers of residents are required to withhold income tax on compensation and remit the tax to the State. Taxpayers are required to file an annual return. The State makes quarterly distributions to the District after withholding amounts for administrative fees and estimated refunds. Income tax revenue is credited to the General Fund.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### **NOTE 9 - LONG-TERM OBLIGATIONS (Continued)**

### **2014 Current Refunding Bonds**

On April 16, 2014, the District issued \$1,300,000 of Current Refunding General Obligation Bonds that were issued to refund the 2004 School Improvement Bonds. The \$1,300,000 bond issue consists of serial bonds. The bonds were issued for a five-year period with a final maturity at December 1, 2019. The balance of the outstanding bonds refunded was removed from the District's financial statements, and as of June 30, 2014, the refunded bonds have been paid in full. The refunding serial bonds were issued with a premium in the amount of \$19,304, which will be reported as an increase to bonds payable. Issuance costs associated with the bond issue were \$1,319,304. The refunding resulted in a difference between the net carrying amount of the debt and the acquisition price of \$137,068. The issuance resulted in a difference (savings) between the cash flows required to service the old debt and the cash flows required to service the new debt of \$152,411. The issuance resulted in an economic gain of \$128,974.

The final principal and interest payment of \$565,000, and \$5,650, respectively, was made in fiscal year 2020 to retire the refunding bond.

### **Series 2015 Refunding Bonds**

On September 3, 2015, the District issued \$23,615,000 of Advance Refunding General Obligation Bonds to partially refund the Series 2007 Advance Refunding Bonds. The entire bond issue consists of serial bonds carrying an interest rate of five percent. The bonds were issued for a seventeen-year period with a final maturity at December 1, 2031. At the date of refunding, \$27,583,822 was deposited in an irrevocable trust to provide for all future debt service payments on the refunded Series 2007 Advance Refunding Bonds. The balance of the outstanding bonds refunded was removed from the District's financial statements, and as of June 30, 2016, the refunded bonds have been paid in full. The advance refunding serial bonds were issued with a premium in the amount of \$3,855,499, which will be reported as an increase to bonds payable, and bond issuance costs totaling \$184,821. The premium will be amortized to interest expense over the life of the bonds using the straight-line method and the bond issuance costs were expensed in fiscal year 2016. The refunding resulted in a difference between the net carrying amount of the debt and the acquisition price of \$607,874. The issuance resulted in a difference (savings) between the cash flows required to service the old debt and the cash flows required to service the new debt of \$3,532,887 representing an economic gain of \$2,636,741.

The total principal and interest requirements to retire the Series 2015 Refunding Bonds are as follows:

Fiscal Year		
Ending June 30,	 Principal	 Interest
2021	\$ 1,655,000	\$ 1,039,125
2022	1,740,000	954,250
2023	1,825,000	865,125
2024	1,915,000	771,625
2025	2,015,000	673,375
2026-2030	9,060,000	1,610,500
2031-2032	 3,400,000	 260,500
Total	\$ 21,610,000	\$ 6,174,500

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### **NOTE 9 - LONG-TERM OBLIGATIONS (Continued)**

### **2016** Lease-Purchase Agreement

On November 15, 2016, the District entered into an agreement with Ameresco, Inc. to perform a project consisting of certain energy conservation services and installations, including replacing failed heating units in the high school building. Ameresco has agreed to perform the scope of services at a contract cost of \$1,775,986.

On December 15, 2016, the District entered into a series of one-year renewable lease-purchase agreements with Park National Bank (the Bank), whereas the District leases the project site to the Bank, and subsequently constructs the energy conservation services and installations, and the Bank, in turn, subleases the land, and leases the constructed school facilities to the District. The Bank agreed to pre-pay the \$2,000,000 in rental payments in order to fund the construction project. In turn, the District agreed to pay \$2,000,000 under the sublease at an interest rate of 2.510%. The final payment is due December 1, 2031.

Per the renewable lease-purchase agreements with Park National Bank, the District pledged the equipment purchased from Ameresco as collateral for the debt. In the event that the District prepays the rental payments, Park National Bank has the right to terminate the agreements. Also, in the event of default, Park National Bank shall have all of the rights of the equipment. In the event of default, Park National Bank may also exercise the following rights and remedies:

- 1. The District will be required to pay the remainder of the agreements including any prepayment penalties.
- 2. The District may be required to assemble and deliver the equipment to Park National Bank, including all certificates of title. Park National Bank also has full power to enter the property of the District and take possession of the equipment.
- 3. Park National Bank has full power to sell, lease, transfer, or deal with the equipment or proceeds relating to the sale of the equipment.
- 4. Park National Bank can appoint a receiver to take possession of the equipment, with the power to protect, preserve, and operate the equipment preceding the foreclosure and can collect rents from the equipment to be used as payments for their receivership.
- 5. Park National Bank or the receiver may collect payments, rents, income, and revenues from the equipment.
- 6. Park National Bank can obtain a judgement against the District for any deficiency remaining on the agreements due.

The total principal and interest requirements to retire the 2016 Lease-Purchase Agreement are as follows:

Fiscal Year			
Ending June 30,	 Principal	]	Interest
2021	\$ 133,333	\$	38,491
2022	133,333		35,144
2023	133,333		31,798
2024	133,333		28,524
2025	133,333		25,104
2026-2030	533,334		66,989
2030-2032	 400,002		15,075
Total	\$ 1,600,001	\$	241,125

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### **NOTE 9 - LONG-TERM OBLIGATIONS (Continued)**

### **2018 and 2020 Bus Leases**

On August 23, 2017 and January 23, 2020, the District entered into a lease agreement with Santander Bank for the purchase of six school buses. Three of the buses were purchased in 2018 and three were purchased in 2020. The leases are being paid out of the general fund.

Per the agreement with Santander bank, the titles of the buses were transferred to the District when the buses were delivered to the District, and Santander was made a lien on those titles in order to secure all of the Districts obligations. The agreement states that the District has examined the buses and that full payments towards the leases must be absolute and timely. In the event of a non-appropriation the District must notify Santander promptly. If the lease is terminated or an event of non-appropriation occurs, the District shall immediately deliver the vehicles to Santander, or where Santander directs. In the event of default, Santander Bank may exercise the following rights and remedies.

- 1. Without notice or demand, Santander may declare all sums due during the District's current fiscal year.
- 2. Santander Bank may sue the District to recover any and all payments then accrued or thereafter accruing with respect to the vehicles.
- 3. Santander Bank may take possession of the vehicles without demand or notice wherever they may be located, with or without legal process, and retain them free from any claims of the District.
- 4. Santander Bank may terminate the lease.
- 5. Santander Bank may exercise any other rights, remedies, or privileges available to them.

The agreements provide for minimum annual rental payments as follows:

Ending June 30,	F	Principal	I	nterest
2021	\$	179,065	\$	5,962
2022		89,103		4,695
2023		91,422		2,376
Total	\$	359,590	\$	13,033

The District's overall legal debt margin at June 30, 2020, was \$29,134,944, with an unvoted debt margin of \$528,558. The District was approved as a special needs district by the Ohio Department of Education. This approval was granted based on projected tax valuation growth figures submitted by the District to the Ohio Department of Education, which is used to calculate the legal debt margin.

Bonds and Notes are paid from the debt service fund. The 2016 direct borrowing is being paid from the General Fund and the 2018 and 2020 direct borrowings are being paid from the Permanent Improvement Fund. Compensated absences are paid from the General Fund.

There is no repayment schedule for the net pension liability and net OPEB liability; however, employer pension and OPEB contributions are made from the General Fund. For additional information related to the net pension liability and net OPEB liability see Notes 11 and 12.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### **NOTE 10 - RECEIVABLES**

Receivables at year-end consisted of property and income taxes, revenue in lieu of property taxes, intergovernmental, interest, and accounts. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of property taxes, the stable condition of State programs, and the current year guarantee of federal funds. All receivables except property and income taxes are expected to be received within one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

#### NOTE 11 – DEFINED BENEFIT PENSION PLANS

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

### Net Pension Liability/Net OPEB Liability (Asset)

Pensions and OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net pension/OPEB liability (asset) represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities (assets) within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension/OPEB liability* (asset) on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

The remainder of this note includes the required pension disclosures. See Note 12 for the required OPEB disclosures.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### **NOTE 11 – DEFINED BENEFIT PENSION PLANS (Continued)**

### Plan Description - School Employees Retirement System (SERS)

Plan Description – The District's non-teaching employees participate in SERS, a statewide, cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost of living adjustments and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at <a href="https://www.ohsers.org">www.ohsers.org</a> under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire before	Eligible to Retire on or after
	August 1, 2017*	August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or
		Age 57 with 30 years of service credit
Actuarially Reduced	Age 60 with 5 years of service credit	Age 62 with 10 years of service credit; or
Benefits	Age 55 with 25 years of service credit	Age 60 with 25 years of service credit

<sup>\*</sup>Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first 30 years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. Beginning April 1, 2018, new benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. A three-year COLA suspension is in effect for all benefit recipients for the years 2018, 2019, and 2020. Upon resumption of the COLA, it will be indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2020, the allocation to pension, death benefits, and Medicare B was 14.0 percent. SERS did not allocate employer contributions to the Health Care Fund for fiscal year 2020.

The District's contractually required contribution to SERS was \$380,022 for fiscal year 2020. Of this amount, \$23,011 is reported as an intergovernmental payable.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### NOTE 11 – DEFINED BENEFIT PENSION PLANS (Continued)

### Plan Description - State Teachers Retirement System (STRS)

Plan Description – The District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Effective August 1, 2017 – July 1, 2019, any member could retire with reduced benefits who had (1) five years of service credit and age 60; (2) 27 years of service credit and age 55; or (3) 30 years of service credit regardless of age. Effective August 1, 2019 – July 1, 2021, any member may retire with reduced benefits who has (1) five years of service credit and age 60; (2) 28 years of service credit and age 55; or (3) 30 years of service credit regardless of age. Eligibility changes will continue to be phased in through August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 60, or 35 years of service credit and age 60, or 30 years of service credit regardless of age.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate goes to the DC Plan and the remaining 2 percent goes to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity after termination of employment at age 50 or later.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### **NOTE 11 – DEFINED BENEFIT PENSION PLANS (Continued)**

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For the fiscal year ended June 30, 2020, plan members were required to contribute 14 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2020 contribution rates were equal to the statutory maximum rates.

The District's contractually required contribution to STRS was \$2,040,587 for fiscal year 2020. Of this amount, \$225,801 is reported as an intergovernmental payable.

### Net Pension Liability, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an independent actuarial valuation as of that date. The District's proportion of the net pension liability was based on the employer's share of employer contributions in the pension plan relative to the total employer contributions of all participating employers. Following is information related to the proportionate share and pension expense:

	 SERS	 STRS	 Total
Proportion of the Net Pension Liability:	 	 _	
Current Measurement Date	0.10113120%	0.11893525%	
Prior Measurement Date	 0.10822080%	 0.12096465%	
Change in Proportionate Share	 -0.00708960%	-0.00202940%	
Proportionate Share of the Net			
Pension Liability	\$ 6,050,857	\$ 26,301,816	\$ 32,352,673
Pension Expense	\$ 900,709	\$ 4,037,267	\$ 4,937,976

Deferred outflows/inflows of resources represent the effect of changes in the net pension liability due to the difference between projected and actual investment earnings, differences between expected and actual actuarial experience, changes in assumptions and changes in the District's proportion of the collective net pension liability. The deferred outflows and deferred inflows are to be included in pension expense over current and future periods. The difference between projected and actual investment earnings is recognized in pension expense using a straight-line method over a five-year period beginning in the current year. Deferred outflows and deferred inflows resulting from changes in sources other than differences between projected and actual investment earnings are amortized over the average expected remaining service lives of all members (both active and inactive) using the straight line method. Employer contributions to the pension plan subsequent to the measurement date are also required to be reported as a deferred outflow of resources.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

# **NOTE 11 – DEFINED BENEFIT PENSION PLANS (Continued)**

At June 30, 2020 the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS	STRS	 Total
<b>Deferred Outflows of Resources</b>		 	
Differences between Expected and			
Actual Experience	\$ 153,438	\$ 214,141	\$ 367,579

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### **NOTE 11 – DEFINED BENEFIT PENSION PLANS (Continued)**

### Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations. Future benefits for all current plan members were projected through 2035.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2019, are presented below:

Actuarial Cost Method Entry Age Normal (Level Percent of Payroll)

Inflation 3.00 percent

Future Salary Increases, including inflation 3.50 percent to 18.20 percent

Investment Rate of Return 7.50 percent net of investment expense, including inflation COLA or Ad Hoc COLA 2.50 percent, on and after April 1, 2018, COLA's for future

retirees will be delayed for three years following

commencement

For post-retirement mortality, the table used in evaluating allowances to be paid is the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, with 120 percent of male rates and 110 percent of female rates used. The RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years is used for the period after disability retirement.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### NOTE 11 – DEFINED BENEFIT PENSION PLANS (Continued)

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term return expectation for the investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The asset allocation, as used in the June 30, 2015 five-year experience study, is summarized as follows:

	Target	Long Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	1.00 %	0.50 %
US Equity	22.50	4.75
International Equity	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00 %	

Discount Rate Total pension liability was calculated using the discount rate of 7.50 percent. The discount rate determination does not use a municipal bond rate. The projection of cash flows used to determine the discount rate assumed that employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 25-year amortization period of the unfunded actuarial accrued liability. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the District's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	Current					
	1% Decrease		Discount Rate		1% Increase	
District's Proportionate Share						
of the Net Pension Liability	\$	8,479,414	\$	6,050,857	\$	4,014,208

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### **NOTE 11 – DEFINED BENEFIT PENSION PLANS (Continued)**

### Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2019, actuarial valuation, are presented below:

Inflation	2.50 percent
Projected Salary Increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Discount Rate of Return	7.45 percent
Projected Payroll Growth	3.00 percent
Cost-of-Living Adjustments	0.00 percent

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

The actuarial assumptions used in the July 1, 2019 valuation, were based on the results of an actuarial experience study for July 1, 2011, through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

	Target	Long Term Expected			
Asset Class	Allocation*	Real Rate of Return**			
Domestic Equity	28.00 %	7.35 %			
International Equity	23.00	7.55			
Alternatives	17.00	7.09			
Fixed Income	21.00	3.00			
Real Estate	10.00	6.00			
Liquidity Reserves	1.00	2.25			
Total	100.00 %				

<sup>\*</sup>Target weights will be phased in over a 24-month period concluding on July 1, 2019.

<sup>\*\*</sup>Ten year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### **NOTE 11 – DEFINED BENEFIT PENSION PLANS (Continued)**

**Discount Rate**. The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes that employer and member contributions will be made at statutory contribution rates of 14 percent each. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on investments of 7.45 percent was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2019.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table represents the District's proportionate share of the net pension liability as of June 30, 2019, calculated using the current period discount rate assumption of 7.45 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption:

		Current					
	1% Decrease		Discount Rate		1	1% Increase	
District's Proportionate Share		_			·		
of the Net Pension Liability	\$	38,437,172	\$	26,301,816	\$	16,028,613	

### Social Security System

Effective July 1, 1991, all employees not otherwise covered by School Employees Retirement System or State Teachers Retirement System have an option to choose Social Security. As of June 30, 2020, three members of the Board of Education have elected Social Security. The District's liability is 6.2 percent of wages paid.

### **NOTE 12 – DEFINED BENEFIT OPEB PLANS**

See Note 11 for a description of the net OPEB liability (asset).

### Plan Description - School Employees Retirement System (SERS)

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

### NOTE 12 – DEFINED BENEFIT OPEB PLANS

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For the fiscal year ended June 30, 2020, SERS did not allocate any employer contributions to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2020, this amount was \$19,600. Statutes provide that no employer shall pay a health care surcharge greater than 2.0 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2020, the District's surcharge obligation was \$48,662, which is reported as an intergovernmental payable.

### Plan Description - State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2021. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2020, STRS did not allocate any employer contributions to post-employment health care.

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### NOTE 12 - DEFINED BENEFIT OPEB PLANS (Continued)

#### Net OPEB Liability (Asset), OPEB Expense, and Deferred Outflows/Inflows of Resources Related to OPEB

The net OPEB liability (asset) was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability (asset) was based on the District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

	 SERS	-	STRS	 Total
Proportion of the Net OPEB Liability (Asset):				
Current Measurement Date	0.10275700%		0.11893500%	
Prior Measurement Date	0.10925700%		0.12096500%	
Change in Proportionate Share	 -0.00650000%		-0.00203000%	
Proportionate Share of the Net				
OPEB Liability (Asset)	\$ 2,584,130	\$	(1,969,849)	
OPEB Expense	\$ 81,774	\$	(488,257)	\$ (406,483)

At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	SERS	STRS	Total
<b>Deferred Outflows of Resources</b>	_	_	 _
Differences between Expected and			
Actual Experience	\$ 37,932	\$ 178,583	\$ 216,515

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### NOTE 12 - DEFINED BENEFIT OPEB PLANS (Continued)

\$48,662 reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the fiscal year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in OPEB expense as follows:

	 SERS	 STRS	Total
Fiscal Year Ending June 30:			
2021	\$ (152,224)	\$ (456,232)	\$ (608,456)
2022	(87,257)	(456,234)	(543,491)
2023	(85,437)	(406,649)	(492,086)
2024	(85,735)	(389,250)	(474,985)
2025	(95,697)	(386,578)	(482,275)
Thereafter	 (48,508)	 (10,692)	 (59,200)
	\$ (554,858)	\$ (2,105,635)	\$ (2,660,493)

#### Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### **NOTE 12 – DEFINED BENEFIT OPEB PLANS (Continued)**

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2019, are presented below:

Inflation 3.00 percent

Salary Increases, including inflation 3.50 percent to 18.20 percent

Investment Rate of Return 7.50 percent net of investment expense, including inflation

Municipal Bond Index Rate

Measurement Date 3.13 percent Prior Measurement Date 3.62 percent

Single Equivalent Interest Rate

Measurement Date 3.22 percent, net of plan investment expense, including price inflation Prior Measurement Date 3.70 percent, net of plan investment expense, including price inflation

Health Care Cost Trend Rate

Pre-Medicare 7.00 percent - 4.75 percent Medicare 5.25 percent - 4.75 percent

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer time frame. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### NOTE 12 - DEFINED BENEFIT OPEB PLANS (Continued)

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized as follows:

	Target	Long Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	1.00 %	0.50 %
US Equity	22.50	4.75
International Equity	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00 %	

Discount Rate The discount rate used to measure the total OPEB liability at June 30, 2019 was 3.22 percent. The discount rate used to measure total OPEB liability prior to June 30, 2019 was 3.70 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the plan at the contribution rate of 2.00 percent of projected covered payroll each year, which includes a 1.50 percent payroll surcharge and no contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2029. However, since SERS' actuaries indicate the fiduciary net position is projected to be depleted at a future measurement date, the single equivalent interest rate is determined as the single rate that will generate a present value of benefit payments equal to the sum of the present value determined by the long-term expected rate of return, and the present value determined by discounting those benefits after the date of depletion by the Fidelity General Obligation 20-year Municipal Bond Index rate of 3.13 percent, as of June 30, 2019 (i.e., municipal bond rate).

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability and what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (2.22 percent) and higher (4.22 percent) than the current discount rate (3.22 percent). Also shown is what the net OPEB liability would be based on health care cost trend rates that are one percentage point lower (6.00 percent decreasing to 3.75 percent) and higher (8.00 percent decreasing to 5.75 percent) than the current rate.

				Current		
	19	6 Decrease	Di	scount Rate	1	% Increase
District's Proportionate Share of the Net OPEB Liability	\$	3,136,635	\$	2,584,130	\$	2,144,811
of the Net of EB Emonity	Ψ	3,130,033	Ψ	2,301,130	Ψ	2,111,011
				Current		
	19	6 Decrease	1	rend Rate	1	% Increase
District's Proportionate Share						
of the Net OPEB Liability	\$	2,070,406	\$	2,584,130	\$	3,265,700

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### NOTE 12 – DEFINED BENEFIT OPEB PLANS (Continued)

#### Actuarial Assumptions – STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2019, actuarial valuation are presented below:

Inflation 2.50 percent

Projected Salary Increases 12.50 percent at age 20 to 2.50 percent at age 65

Payroll Increases 3.00 percent

Investment Rate of Return 7.45 percent, net of investment expenses, including inflation

Discount Rate of Return 7.45 percent

Health Care Cost Trend Rates

Medical	<u>Initial</u>	<u>Ultimate</u>
Pre-Medicare	5.87 percent	4.00 percent
Medicare	4.93 percent	4.00 percent
Prescription Drug		
Pre-Medicare	7.73 percent	4.00 percent
Medicare	9.62 percent	4.00 percent

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

The actuarial assumptions used in the June 30, 2019 valuation, were adopted by the board from the results of an actuarial experience study for July 1, 2011, through June 30, 2016.

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### **NOTE 12 – DEFINED BENEFIT OPEB PLANS (Continued)**

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

	Target	Long Term Expected
Asset Class	Allocation*	Real Rate of Return**
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	100.00 %	

<sup>\*</sup>Target weights will be phased in over a 24-month period concluding on July 1, 2019.

**Discount Rate** The discount rate used to measure the total OPEB liability was 7.45 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumed STRS continues to allocate no employer contributions to the health care fund. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was applied to all periods of projected benefit payments to determine the total OPEB liability as of June 30, 2019.

Sensitivity of the District's Proportionate Share of the Net OPEB Asset to Changes in the Discount Rate and Health Care Cost Trend Rate The following table represents the net OPEB asset as of June 30, 2019, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the net OPEB liability as of June 30, 2019, calculated using health care cost trend rates that are one percentage point lower and one percentage point higher than the current health care cost trend rates.

				Current		
	19	% Decrease	D	iscount Rate	1	% Increase
District's Proportionate Share				_		_
of the Net OPEB Liability (Asset)	\$	(1,680,874)	\$	(1,969,849)	\$	(2,212,809)
				Current		
	19	% Decrease		Γrend Rate	1	% Increase
District's Proportionate Share of the Net OPEB Liability (Asset)	\$	(2,233,718)	\$	(1,969,849)	\$	(1,646,673)
	Ψ.	(=,==0,,10)	. *	(-,)	. *	(=,=:0,0,0)

<sup>\*\*</sup>Ten year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### **NOTE 13 – EMPLOYEE BENEFITS**

#### (a) Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per fiscal year, depending upon length of service. Accumulated vacation time may be carried forward for the Treasurer and upon approval of the Superintendent, for all other classified employees. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time.

Teachers, administrators, and classified employees can earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 210 days for all personnel. Upon retirement, payment is made for one-third of accrued, but unused sick leave credit to a maximum of 50 days for classified and certified employees.

#### (b) Health Care Benefits

The District provides health and drug insurance through Medical Mutual of Ohio and dental insurance through Delta Dental for all eligible employees. The District pays medical and drug monthly premiums for staff (family and single coverage). The District pays the total monthly premium for dental insurance coverage for family and single employees. The District also provides vision insurance to its employees through VSP. The District pays the total premium for vision coverage for family and single.

The District provides life insurance and accidental death and dismemberment insurance to most employees through the Mutual of Omaha. Premiums are paid from the same funds that pay the employees' salaries with the exception of employees paid from federal funds. The premiums for employees whose salaries are paid from federal funds are paid from the General Fund.

This space intentionally left blank.

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### **NOTE 14 – RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the fiscal year, the District contracted with Southwestern Ohio Educational Purchasing Counsel for boiler and machinery, inland marine, crime insurance, general liability insurance, and fleet insurance. Coverage provided by is as follows:

Building and Contents-Replacement Cost (\$5,000 deductible)	\$96,382,185
Inland Marine (\$5,000 deductible)	
Property	1,000,000
Crime Insurance (\$5,000 deductible)	
Money & Securities	1,000,000
Employee Dishonesty	1,000,000
Forgery or Alteration	1,000,000
General Liability	
Per Occurrence	1,000,000
Aggregate Per Year	3,000,000
Education Umbrella Liability Policy for General Liability	
Per Occurrence	1,000,000
Aggregate Per Year	3,000,000
Fleet Insurance (\$1,000 deductible)	1,000,000
Per Occurrence	1,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in insurance coverage from the last year.

In fiscal year 2020, the District participated in the Metropolitan Educational Technology Association (META) group insurance purchasing pool (Note 16). META helps member school districts receive discounted rates on various items such as their life, property, boiler and machinery, inland marine, crime, and freight insurance, services, supplies, and other items. The META has over 200 members which include school districts, joint vocational schools, educational service centers and libraries covering 37 counties in Central Ohio. The governing board of META is composed of either the superintendent, a designated representative, or a member of the board of education for each participating school district in Franklin County, and one representative from each county outside Franklin County.

For fiscal year 2020, the District participated in the Ohio School Boards Association Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool (Note 16). The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State board on the rate for the GRP rather than its individual rate. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria.

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### NOTE 15 – JOINTLY GOVERNED ORGANIZATIONS

- (a) Licking Area Computer Association The District is a participant in the Licking Area Computer Association (LACA) which is a computer consortium. LACA is an association which services sixteen entities within the boundaries of Licking, Knox, Muskingum, Fairfield, Medina, and Perry Counties. These entities consist of public school districts, private schools, and educational service centers. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of LACA consists of the superintendents from all participating districts. The continued existence of LACA is not dependent on the District's continued participation and the District has no equity interest in the Association. The LACA constitution states that any school district withdrawing from the Association prior to dissolution forfeits their claim to the Association's capital assets. The District's total payments to LACA for computer services during fiscal year 2020 were \$174,900. Financial statements for LACA can be obtained from their fiscal agent the Career and Technology Education Centers of Licking County, 150 Price Road, Newark, OH 43055.
- (b) Career and Technology Education Centers of Licking County The Career and Technology Education Centers of Licking County is a jointly governed organization providing vocational education to its member school districts. The Career and Technology Education Centers of Licking County is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of three representatives from the Licking County Educational Service Center, two from the Newark City School District, one from the Heath City School District, and one from the Granville Exempted Village School District, which possesses its own budgeting and taxing authority. The District's total payments to the Career and Technology Educational Centers of Licking County during fiscal year 2020 were \$0. To obtain financial information write to the Career and Technology Education Centers of Licking County, Ben Streby, who serves as Treasurer, at 150 Price Road, Newark, Ohio 43055.
- (c) Metropolitan Educational Technology Association The District participates in the Metropolitan Educational Technology Association (META), a jointly governed organization. The organization is composed of over 200 members which includes school districts, joint vocational schools, educational service centers, and libraries covering 37 counties in Central Ohio. The META helps its members purchase services, insurances, supplies, and other items at a discounted rate. The governing board of META is composed of either the superintendent, a designated representative or a member of the board of education for each participating school district in Franklin County and one representative from each county outside of Franklin County. Each year, the participating school districts pay a membership fee to META to cover the costs of administering the program. The District's membership payment to META for fiscal year 2020 was \$0. Financial information may be obtained from the Metropolitan Educational Technology Association, Ashley Widby, who serves as Interim Chief Financial Officer, at 2100 Citygate Dr., Columbus, OH 43219.
- (d) Newark-Granville Community Authority The Newark-Granville Community Authority (Authority) is a jointly governed organization created under Section 349.03, Ohio Revised Code. The Authority was created for the purposes of encouraging the orderly development of a well-planned, diversified and economically sound new community in central Licking County. The Authority is operated by a Board of Trustees (Board) that is comprised of seven residents of the community who are elected to two-year terms. The revenue source of this organization consists of special assessments imposed by Licking County on Park Trails Community. The special assessment is based on a \$250,000 average home value within the community, which results in a minimum annual community development charge of \$455 per home for 20 consecutive years.

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### NOTE 16 - INSURANCE PURCHASING POOLS

#### (a) Ohio School Boards Association Workers' Compensation Group Rating Plan

The District participates in the Ohio School Boards Association (OSBA) Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State, based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Sheakley, Inc. provides administrative, cost control and actuarial services to the GRP. The GRP's business and affairs are conducted by a three member Board of directors consisting of the President, the President-Elect and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

#### (b) Metropolitan Educational Technology Association Group Insurance Pool

The District participates in the Metropolitan Educational Technology Association (META) insurance purchasing pool. The META helps its members purchase services, insurances, supplies, and other items at a discounted rate. The organization is composed of over 200 members which includes school districts, joint vocational schools, educational service centers, and libraries covering 37 counties in Central Ohio. The governing board of META is composed of either the superintendent, a designated representative or a member of the board of education for each participating school district in Franklin County and one representative from each county outside of Franklin County. Each year, the participating school districts pay a membership fee to META to cover the costs of administering the program.

#### **NOTE 17 – RELATED ORGANIZATION**

#### (a) Granville Schools Education Foundation, Incorporated

The Granville Schools Education Foundation, authorized under Ohio Revised Code Chapter 1702, is a independent nonprofit corporation created in 1994. The Foundation's purpose is to improve education for the students of Granville Schools. The Foundation is governed by a Board of Trustees appointed by the Granville Exempted Village School District Board of Education. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel and does not depend on the District for operational subsidies. The District has no ability to impose its will on the organization nor does a burden/benefit relationship exist. Financial information can be obtained from the Granville Schools Education Foundation, Wendy Bittel, who serves as Executive Director, at P.O. Box 84, Granville, Ohio 43023.

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### **NOTE 17 – RELATED ORGANIZATION (Continued)**

#### (b) Granville Public Library

The Granville Public Library is a political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Library is governed by a Board of Trustees appointed by its membership through a voice vote at the Board's annual organization meeting. The Board of Trustees possess its own contracting and budgetary authority, hires and fires personnel and does not depend on the District for operating subsidies. Although the District serves as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. The determination to request approval of a tax, the tax rate, and purpose are discretionary decisions made solely by the Board of Trustees. Financial information may be obtained from the Granville Public Library at 217 East Broadway, Granville, Ohio 43023.

#### **NOTE 18 – COMMITMENTS AND CONTINGENCIES**

- (a) Grants The District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds.
- **(b)** Litigation The District is currently not a party to any material legal proceedings.
- (c) Encumbrances At fiscal year-end, outstanding encumbrances in the General Fund, Debt Service Fund, and Other Governmental Funds were \$950,340, \$0, and \$2,940,659, respectively.
- (d) Foundation Funding District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. As of the date of this report, additional ODE adjustments for fiscal year 2020 are not finalized. As a result, the impact of future FTE adjustments on the fiscal year 2020 financial statements is not determinable, at this time. Management believes this may result in either an additional receivable to, or a liability of, the District.

This space intentionally left blank.

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### **NOTE 19 – FUND DEFICIT**

The following funds had a deficit fund balance at June 30, 2020:

Fund	Deficit Balance
	-
ESSER	(\$680)
Title VI-B Idea	(29,732)
Title I Disadvantaged Children	(15,563)
Improving Teacher Quality	(5,824)
Micellaneous Federal Grants	(9,436)
	(\$61,235)

This deficit fund balance is the result of the recognition of payables in accordance with generally accepted accounting principles. The general fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

#### **NOTE 20 - INTERFUND TRANSACTIONS**

During the fiscal year, the District transferred \$1,828,000 and \$572,000 from the General Fund and Permanent Improvement Fund, respectively, to the Building Fund to fund the District's share of the Athletic Facilities Improvement Project. Interfund transfers between governmental funds are eliminated on the government-wide financial statements.

On an as-needed basis, the District's General Fund advances cash to other funds of the District to eliminate cash deficits. During the year, advances from the District's General Fund were made. As of June 30, 2020, receivables and payables that resulted from those advance transactions were as follows:

	Due to the
Fund	General Fund
Building Fund	\$1,533,995
Vocational Education Enhancement	2,000
ESSER	50,000
Title VI-B IDEA	11,564
Title I Disadvantaged Children	21,000
Improveing Teacher Quality	9,000
Miscellaneous Federal Grants	10,000
	\$1,637,559

In addition, the District advanced \$900 from the Program Donations Fund to the District Managed Student Activities Fund during the fiscal year to provide seed money to restart a school store at the high school run by the Business Management and Entrepreneurship classes.

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### **NOTE 20 - INTERFUND TRANSACTIONS (Continued)**

The advance of \$1,533,995 from the General Fund to the Building Fund will be paid back within 4 years, with a \$383,499 payment each year. The advance will be paid back with donations from the District's Athletic Boosters for their new Athletic Complex.

#### **NOTE 21 – SET-ASIDE CALCULATIONS**

The District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the purchase an equal amount for the acquisition and construction of capital improvements.

The following cash basis information describes the change in the year-end set-aside amounts for capital acquisition. Disclosure of this information is required by State statute.

Set-aside cash balance as of June 30, 2019	\$ -
Current fiscal year set-aside requirement	449,107
Current Year Offsets	(449,107)
Qualifying Disbursements	-
Total	\$ -
Balance Carried Forward to FY 2021	\$ -

Capital acquisition offsets presented in the table were limited to those necessary to reduce the fiscal year-end balance to zero. Although the District had offsets during the fiscal year that would have reduced the set-aside amount for capital acquisitions to below zero, this extra amount may not be used to reduce the set-aside requirement of future years, therefore the District has chosen not to present them.

#### **NOTE 22 – CHANGE IN ACCOUNTING PRINCIPLES**

For fiscal year ending June 30, 2020, the District has implemented the following:

For the fiscal year ended June 30, 2020, the School District implemented GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. GASB Statement No. 95 postpones the effective dates of certain provisions in the statements that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later.

The following statements are postponed by one year:

- Statement No. 84, Fiduciary Activities
- Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period
- Statement No. 90, Majority Equity Interests
- Statement No. 91, Conduit Debt Obligations

Certain provisions in the following statements are postponed by one year:

- Statement No. 92, Omnibus 2020
- Statement No. 93, Replacement of Interbank Offered Rates

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### **NOTE 22 – CHANGE IN ACCOUNTING PRINCIPLES (Continued)**

The following statement is postponed by 18 months:

• Statement No. 87, Leases

For the fiscal year ended June 30, 2020, the District also implemented paragraphs 4 and 5 of Governmental Accounting Standards Board Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans. Paragraph 4 increases consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a government board typically would perform and paragraph 5 mitigates costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements. The implementation of paragraphs 4 and 5 of this Statement did not have an effect on the financial statements of the District

#### **NOTE 23 – SUBSEQUENT EVENT**

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of the District. The District's investment portfolio and the investments of the pension and other employee benefit plans in which the District participates have incurred a significant decline in fair value, consistent with the general decline in financial markets. However, because the values of individual investments fluctuate with market conditions, and due to market volatility, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the District's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated. The District is offering its students the option to attend in person or remotely, and the first day of the school year was pushed back several days to allow teachers additional planning time. Students that attend in person are in the building full-time five days a week. The District has also modified its food service offerings and prices to minimize the need for supplemental revenue from the General Fund.

## NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### **NOTE 1 – NET PENSION LIABILITY**

#### Changes in Assumptions - SERS

Beginning in fiscal year 2018, an assumption of 2.5 percent was used for COLA or Ad Hoc COLA. Prior to 2018, an assumption of 3.0 percent was used.

For fiscal year 2017, the SERS Board adopted the following assumption changes:

- Assumed rate of inflation was reduced from 3.25 percent to 3.00 percent
- Payroll Growth Assumption was reduced from 4.00 percent to 3.50 percent
- Assumed real wage growth was reduced from 0.75 percent to 0.50 percent
- Rates of withdrawal, retirement and disability were updated to reflect recent experience.
- Mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females.
- Mortality among service retired members, and beneficiaries was updated to RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates.
- Mortality among disabled members was updated to RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

#### Changes in Assumptions – STRS

For fiscal year 2018, the Retirement Board approved several changes to the actuarial assumptions in 2017. The long term expected rate of return was reduced from 7.75 percent to 7.45 percent, the inflation assumption was lowered from 2.75 percent to 2.50 percent, the payroll growth assumption was lowered to 3.00 percent, and total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25 percent due to lower inflation. The healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016. Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

#### Changes in Benefit Terms - SERS

With the authority granted to the Board under SB 8, the Board enacted a three-year COLA delay for future benefit recipients commencing on or after April 1, 2018.

For fiscal year 2018, the cost-of-living adjustment was changed from a fixed 3.00 percent to a cost-of-living adjustment that is indexed to CPI-W not greater than 2.50 percent with a floor of zero percent beginning January 1, 2018. In addition, with the authority granted the Board under HB 49, the Board has enacted a three-year COLA suspension for benefit recipients in calendar years 2018, 2019 and 2020.

#### Changes in Benefit Terms - STRS

For fiscal year 2018, the cost-of-living adjustment (COLA) was reduced to zero.

## NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### NOTE 2 – NET OPEB LIABILITY/ (ASSET)

#### Changes in Assumptions – SERS

Amounts reported incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented as follows:

#### Municipal Bond Index Rate:

Fiscal year 2020	3.13 percent
Fiscal year 2019	3.62 percent
Fiscal year 2018	3.56 percent
Fiscal year 2017	2.92 percent

#### Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

Fiscal year 2020	3.22 percent
Fiscal year 2019	3.70 percent
Fiscal year 2018	3.63 percent
Fiscal year 2017	2.98 percent

#### Pre-Medicare

Fiscal year 2020	7.00 percent initially, decreasing to 4.75 percent
Fiscal year 2019	7.25 percent initially, decreasing to 4.75 percent
Fiscal year 2018	7.50 percent initially, decreasing to 4.00 percent

#### Medicare

Fiscal year 2020	5.25 percent initially, decreasing to 4.75 percent
Fiscal year 2019	5.375 percent initially, decreasing to 4.75 percent
Fiscal year 2018	5.50 percent initially, decreasing to 5.00 percent

#### Changes in Assumptions - STRS

For fiscal year 2019, the discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45 percent. Valuation year per capita health care costs were updated. Health care cost trend rates ranged from 6.00 percent to 11 percent initially and a 4.50 percent ultimate rate for fiscal year 2018 and changed for fiscal year 2019 to a range of -5.20 percent to 9.60 percent, initially and a 4.00 ultimate rate.

For fiscal year 2018, the blended discount rate was increased from 3.26 percent to 4.13 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

#### Changes in Benefit Terms - SERS

There have been no changes to the benefit provisions.

## NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### NOTE 2 – NET OPEB LIABILITY/ (ASSET) (Continued)

#### Changes in Benefit Terms – STRS

For fiscal year 2020, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021

For fiscal year 2019, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

For fiscal year 2018, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2019. This was subsequently extended, see above paragraph.

#### DESCRIPTION OF FUNDS NON-MAJOR GOVERNMENTAL FUNDS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### **Non-major Governmental Funds**

Non-major Governmental Funds account for revenues from specific sources, which legally, or otherwise, are restricted to expenditures for specific purposes. A description of the District's Non-major Governmental Funds follows:

**Permanent Improvement Fund** - A fund provided to account for all transactions related to acquiring, constructing, or improving school facilities.

**Food Service Fund** - A fund used to account for the financial activity related to the District's food service operation.

**Program Donations Fund** - A fund used to account for the receipt and expenditure of program donations that can be expended for school district programs.

**Other Local Grants** – A fund used to account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specified purposes.

**Public School Support Fund** – A fund provided to account for specific local revenue sources, other than taxes or expendable trusts (i.e. profits from vending machines, sales of pictures, etc.). In accordance with Governmental Accounting Standards Board Statement No. 54, this fund is combined with the General Fund for financial reporting purposes.

Classroom Facilities Maintenance Fund - A fund used to account for the proceeds of a levy for the maintenance of facilities.

**District Managed Student Activity Fund** - A fund provided to account for those student activity programs which have student participation in the activity but do not have student management of the programs. This fund would usually include athletic programs but could also include the band, cheerleaders, flag corps, and other similar types of activities.

**Auxiliary Services Fund** - A fund used to account for monies which provide services and materials to pupils attending non-public schools within the school district.

**Data Communications Fund** - A fund used to account for monies received in order for the District to obtain access to the Ohio Educational Computer Network.

**Vocational Education Enhancement Fund** – A fund used to account for Vocational Education Enhancements that: 1) expand the number of students enrolled in tech prep programs, 2) enable students to develop career plans, to identify initial educational and career goals, and to develop a career passport which provides a clear understanding of the student's knowledge, skills, and credentials to present to future employers, universities, and other training institutes, and 3) replace or update equipment essential for the instruction of students in job skills taught as part of a vocational program or programs approved for such instruction by the State Board of Education.

#### DESCRIPTION OF FUNDS NON-MAJOR GOVERNMENTAL FUNDS FOR THE FISCAL YEAR ENDED JUNE 30, 2020

**Student Wellness and Success** – A fund used to account for state funds used to assist districts in supporting their students' academic achievement through mental health counseling, wraparound services, mentoring and after-school programs.

**Miscellaneous State Grants Fund** - A fund used to account for other state grants, not required to be accounted for in another fund.

Elementary and Secondary School Emergency Relief (ESSER) – A fund used to account for state funds used to aid districts that have been impacted and continue to be impacted by the Novel Coronavirus Disease 2019 (COVID-19).

**Title VI-B IDEA Fund** - A fund used to account for federal funds used to assist states in providing an appropriate public education to all children with disabilities.

**Title I Disadvantaged Children Fund** - A fund used to provide financial assistance to State and Local educational agencies to meet the special needs of educationally deprived children. Included are the Even Start and Comprehensive School Reform programs.

**IDEA Preschool Grant for the Handicapped Fund** - The Preschool Grant Program, Section 619 of Public Law 99-457, addresses the improvement and expansion of services for handicapped children ages three (3) through five (5) years.

**Title II-A Improving Teacher Quality Fund** - A fund used to account for monies to hire additional classroom teachers in grades 1 through 3, so that the number of students per teacher will be reduced.

**Miscellaneous Federal Grants Fund** - A fund used to account for various monies received through state agencies from the federal government or directly from the federal government which are not classified elsewhere. A separate cost center must be used for each grant.

#### **Statistical Section**

This part of Granville Exempted Village School District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

#### **Contents**

#### Financial Trends

These schedules contain trend information to help the reader understand how the District's financial position has changed over time.

#### **Revenue Capacity**

These schedules contain information to help the reader understand and assess the factors affecting the District's ability to generate its most significant local revenue sources, the property tax and income tax.

#### **Debt Capacity**

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

#### **Economic and Demographic Information**

These schedules offer economic and demographic indicators to help the reader understand the environment within which the District's financial activities take place.

#### **Operating Information**

These schedules contain service data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

**Sources:** Unless otherwise noted, the information in these schedules is derived from the financial statements for the relevant year.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Through 2008, personal property tax was assessed on all tangible personal property used in business in Ohio. The assessed value of public utility property ranges from 24 percent of true value to 88 percent, depending on the type of property. General business tangible personal property tax began being phased out in tax year 2006. The listing percentage was reduced to 18.75 percent for tax year 2006, 12.5 percent for tax year 2007, 6.25 percent for tax year 2008 and zero for tax year 2009.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10 percent, 2 1/2 percent and homestead exemptions before being billed.

Values are shown net of exempt property.

The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year.

Rates may only be raised by obtaining the approval of a majority of the voters at a public election.
