

# GEVSD

# State of the Students

---

OCTOBER 12, 2017

# Purpose

---

## The State of the Students:

- Is designed to communicate the “pulse” of our students based on data that is generated on an annual basis
- Serves as baseline information for measurement/evaluation

# Sources of Information

---

- Exit survey results (grades 3, 6, 8, 12)
- OHYES results (grades 7-12)
- EMIS reporting data

What the numbers tell us...

# Students *attend* school on a consistent basis:

GES – 96.2%

GIS – 96.0%

GMS – 96.5%

GHS – 95.6%

# Students feel *physically* safe at school:

GES – 94.2%

GIS – 93.5%

GMS – 93.1%

GHS – 98.3%

Source: Exit Survey

# Students feel *emotionally* safe at school:

GES – 89.5%

GIS – 86.9%

GMS – 81.8%

GHS – 88.1%

Source: Exit Survey

# Students feel *comfortable talking to an adult* at school:

GES – 91.9%

GIS – 86.3%

GMS – 83.3%

GHS – 88.1%

Source: Exit Survey

# Students believe *school is a positive experience*.

GES – 92.4%

GIS – 85.7%

GMS – 86.7%

GHS – no equivalent question

Source: Exit Survey

Students are connected to  
extracurricular activities:

85%

Challenges students face...

# Students feel *stressed at school*:

GES – 39.0%

GIS – 28.6%

GMS – 75.4%

GHS – 91.0%

Source: Exit Survey

# Students manage stress through:

Physical activity

Meditate, pray, relaxation

Hobbies and community service

Self-expression thru arts and literature

Receive support from others

Avoid drama

Limit social media exposure

Each of the management strategies listed above was responded to positively on the OHYES 2016

# Students who get *more than 8 hours of sleep on average school night.*

Freshman – 30.8%  
Sophomore – 25.3%  
Junior – 15.9%  
Senior – 14%

Source: OHYES 2016

# Tobacco Use

# Last 30 days use of tobacco

Male = 7.4%

Female = 3.6%

Grade 7 = 0%

Grade 8 = 2.7%

Grade 9 = 3.9%

Grade 10 = 5%

Grade 11 = 9%

Grade 12 = 14.1%

Smoked or used cigarettes, cigars, chewing tobacco, snuff, or dip on one or more of the past 30 days  
Source: OHYES 2016

# Alcohol Use

# Last 30 days use of alcohol

Male = 11.8%

Female = 14.3%

Grade 7 = 2.3%

Grade 8 = 4.8%

Grade 9 = 5.8%

Grade 10 = 11%

Grade 11 = 22.5%

Grade 12 = 34.9%

Source: OHYES 2016

Average age of first consumption of alcohol is 15-16 yrs old followed by 13-14 yrs old

	Male	Female
13-14 yrs old	13.5%	12.6%
15-16 yrs old	16.6%	19.3%

# Marijuana Use

# Last 30 days use of marijuana

Male = 6.1%

Female = 7.3%

Grade 7 = 0%

Grade 8 = 2.1%

Grade 9 = 1.4%

Grade 10 = 6.1%

Grade 11 = 12.3%

Grade 12 = 19.4%

Source: OHYES 2016

# Prescription Drug Use

# Lifetime misuse of prescription drugs

Male = 10.9%

Female = 9.4%

Grade 7 = 5.2%

Grade 8 = 11.4%

Grade 9 = 7.2%

Grade 10 = 7.3%

Grade 11 = 11.2%

Grade 12 = 16.7%

Prescription drug examples included: OxyContin, Percocet, Vicodin, codeine, Adderall, Ritalin, or Xanax

Lifetime: used one or more times

Source: OHYES 2016

# Mental Health

# Seriously considered suicide during the past year

Grade 7 = 9.1%

Grade 8 = 16.2%

Grade 9 = 10.1%

Grade 10 = 11.8%

Grade 11 = 5.4%

Grade 12 = 18.6%

Source: OHYES 2016

# Saw a health care provider for a mental health problem within the last year

Grade 7 = 28.2%

Grade 8 = 28.0%

Grade 9 = 22.7%

Grade 10 = 22.3%

Grade 11 = 26.6%

Grade 12 = 25.7%

Health Care Provider: Doctor, Nurse, Therapist, Social Worker, or Counselor  
Source: OHYES 2016

Grade	Suicidal	Mental Health support
7	9.1%	28.2%
8	16.2%	28.0%
9	10.1%	22.7%
10	11.8%	22.3%
11	5.4%	26.6%
12	18.6%	25.7%

## Students:

Attend school at a high rate

Feel safe, supported, and connected at school

Have positive school experiences

Face challenges with sleep, stress, substance abuse and mental health

## To Do:

Implement (drug testing and K-12 curriculum)

Monitor

Increase awareness through:

Whole Child Committee

Well-Being Task Force
